

Neighborhood Petition Form

Intersection Control Issues

Dear Resident/Business Owner:

The Village takes its role in traffic safety very seriously. From the requests, complaints, and suggestions we receive from you and from various sources, we can then enhance our transportation system.

Through this Neighborhood Petition Form (NPF) neighbors are encouraged to identify and discuss issues affecting them. We require at least five (5) different addresses be submitted to initiate a staff review.

Staff will then conduct a comprehensive Intersection Control Warrant analysis for the specific issue checked below. Staff's recommendation is Final. If the Warrant is met, staff will proceed with programming and field installation. If the Warrant is not met, the petition is Denied and the petitioners may re-apply 1-year later.

Staff will notify the Contact person to let them know about the status of the petition.

Thank you for your cooperation and understanding.

Intersection of: _____ and _____
