

**VILLAGE OF DOWNERS GROVE
REPORT FOR THE VILLAGE COUNCIL WORKSHOP
MAY 22, 2007 AGENDA**

SUBJECT:	TYPE:	SUBMITTED BY:
Bid: Lane Place/Summit Street Water Main Improvements (CIP Project WA-027)	✓ Resolution Ordinance Motion Discussion Only	David H. Barber, P.E. Director of Public Works

SYNOPSIS

A motion is requested to award a contract for the Lane Place – Summit Street Water Main Improvements (CIP Project WA-027) in the amount of \$620,442.50, to Martam Construction, Inc. of Elgin, Illinois.

Approval to waive the one-week waiting period is also being requested to allow this contract to proceed in advance of the Bike Race scheduled for the weekend of August 17-19, 2007.

STRATEGIC PLAN ALIGNMENT

The Five Year Plan and Goals for 2006-2011 identified *Top Quality Village Infrastructure and Facilities*. A high priority policy action for this goal is *Safe Water, Reliable Service*.

FISCAL IMPACT

The adopted FY07 municipal budget includes funding for the proposed improvements within the Capital Improvement Fund and Water Fund. The Capital Improvement Fund includes funds for replacement of the surface of this street. The Water Fund includes funds for the design and construction of the water main.

CIP Project WA-027	\$450,000	Water Fund
CIP Project ST-004	<u>\$ 53,000</u>	Capital Improvement Fund
Total Budgeted for Project	\$503,000	
Engineering Design Services	<u>\$ 23,750</u>	Water Fund (Previously Awarded)
Balance Remaining	\$479,250	

An amendment to the Water Fund will be required as part of the year end budget process to allocate additional funds from the Water Fund's cash reserve for this construction project in the amount of \$141,192.50. Staff recommends allocation of those additional funds to allow the requested improvements to occur at this time.

RECOMMENDATION

Approval under the Village Attorney's Report following approval of a motion to waive the traditional one-week waiting period and approve on May 22, 2007.

BACKGROUND

Bids for the Lane Place Water Main Improvements were received May 8, 2007. A total of four (4) bids were received with the low bid from Martam Construction, Inc. of Elgin, Illinois. A detailed tabulation of bids is attached. A summary of bids received is as follows:

<u>Contractor</u>	<u>Base Bid</u>	
Martam Construction	\$620,442.50	Low Qualified Bid
Trine Construction	\$655,550.00	
Dawn Companies	\$694,637.00	
Cerniglia Company	\$839,856.00	

Martam Construction has submitted a bid in conformance with the bid requirements. They are pre-qualified per the Illinois Department of Transportation to perform this type of work. A list of references was checked with favorable reviews. The reference list includes DuPage County, Village of Algonquin, City of Elgin, and the Village of Mount Prospect. Martam contracted with the Village last year for the Curtiss Street Culvert Abandonment project which they completed in accordance with the contract requirements.

The project includes the installation of an 8-inch diameter water main to replace a dead-end 4-inch water main on Lane Place and to continue the new 8-inch water main on Summit Street to connect to an existing water main in Main Street. It should be noted that as the project was designed, it was determined to be in the best interest of the Village to include the paving of the parking spaces along Summit Street adjacent to the new Fire Station #2 project. This allowed for efficiencies as the Fire Station #2 project does not include any other asphalt paving. It was further determined that a sidewalk was required along Summit Street from Main Street to the existing sidewalk at Lane Place. Finally, due to the need to resurface the street as a part of this project, staff determined the storm sewers and catch basins on this street were in need of repair therefore replacement of a few of the structures were included with this project. As a result, the overall price of the project exceeded budget estimates.

481-Water Fund	450,000						450,000
							-
							-
							-
TOTAL FUNDING SOURCES	450,000	-	-	-	-	-	450,000

1. Briefly Describe and provide justification for this Capital Project Request.

This project consists of a new 8" watermain on Lane Place and completion of a loop to the water main on Main Street. This is one of the lowest pressure points identified in the system based on the computer Model completed in 2006. This will increase static system pressure and will increase water flow to hydrants in the area.

2. Describe the project status and completed work.

This project should be coordinated with the reconstruction of Fire Station #2.

3. Describe any anticipated grants related to the project.

None

4. What impact will the project have on annual operating expenses? Please quantify and describe.

	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	Future Yrs	TOTAL
Projected Operating Expenses	-	-	-	-	-	-	-
Negligible.
