

**VILLAGE OF DOWNERS GROVE**  
**REPORT FOR THE VILLAGE COUNCIL WORKSHOP**  
**AUGUST 11, 2009 AGENDA**

SUBJECT:	TYPE:	SUBMITTED BY:
FY 2010-2015 Surface Transportation Program (STP) Application	✓ Resolution Ordinance Motion Discussion Only	Naneil Newlon, P.E. Director of Public Works

**SYNOPSIS**

Resolutions are requested to approve the authorization of the Village's participation in the FY10-FY15 Surface Transportation Program (STP) for highway projects, administered by the DuPage Mayors & Managers Conference (DMMC).

**STRATEGIC PLAN ALIGNMENT**

The Five Year Plan and Goals for 2008-2013 identified *Exceptional Municipal Organization*. A supporting objective of this goal is *Top Quality Village Infrastructure and Facilities*.

**FISCAL IMPACT**

There is no cost to the Village for participating in the STP Program, which provides grant funding for selected highway construction projects occurring between FY10 and FY15. Depending on the results of the review and ranking of these projects, staff anticipates engineering work for STP approved projects would be scheduled for the year 2012, with some construction work beginning in 2013.

**RECOMMENDATION**

Waive the one-week waiting period and approve at the August 11, 2009 workshop. This application is due to DuPage Mayors & Managers Conference on or before August 14, 2009.

**BACKGROUND**

The Village has made it a priority to seek grant funding for capital projects. Projects that are submitted for the STP Program are required to meet specific threshold criteria, and after submittal are reviewed and ranked with other submitted projects throughout the County. In the past the Village has successfully received funding from this program for projects such as Prairie Avenue Phases 1 and 2, as well as others.

The STP program provides funding assistance for construction costs only, engineering costs are the responsibility of the local agency. The construction cost participation percentage is 70% federal share and 30% local share. Utilizing the program criteria, staff reviewed roadways and traffic signals in need of improvement and believes that several Village construction projects are likely to receive a favorable ranking in the program. For this year's STP Program application cycle staff is proposing the Village pursue funding for the roadway and intersection improvements projects listed below:

<b>Location</b>	<b>Type of Improvement</b>	<b>Est. Cost</b>	<b>Max. Federal Share (70%)</b>	<b>Village Share (30%)</b>
Main St at Grant St	Traffic Signal Modernization	\$285,000	\$199,500	\$85,500
Lacey Rd at Woodcreek Dr	Traffic Signal Modernization	\$285,000	\$199,500	\$85,500
Washington St, Maple to Warren	Roadway Reconstruction	\$225,000	\$157,500	\$67,500
Carpenter St, Gilbert to Maple	Roadway Reconstruction	\$115,000	\$80,500	\$34,500
59 <sup>th</sup> St, Fairmount to Fairview	Roadway Reconstruction	\$180,000	\$126,000	\$54,000
71 <sup>st</sup> St, Dunham to Camden	Roadway Reconstruction	\$195,000	\$137,000	\$58,000
<b>Total Construction Costs</b>		<b>\$1,285,000</b>	<b>\$900,000</b>	<b>\$385,000</b>
<b>Total Engineering Costs</b>		<b>\$150,000</b>		<b>\$150,000</b>
<b>Total Costs</b>		<b>\$1,435,000</b>	<b>\$900,000</b>	<b>\$535,000</b>

The two traffic signal projects are included because both locations have equipment that is aging and is in need of replacement. Newer equipment will provide increased reliability, decreased maintenance costs, as well as additional program features. The proposed roadway projects are included in the draft 2010 CIP and have current traffic levels that should produce a favorable ranking in the STP Program. Each project in the table will be evaluated independently and the Village could receive funding for some or all of the projects listed.
