

Mayor and Village Council
Village Hall
801 Burlington Avenue
Downers Grove, Illinois 60515

Re: July 12, 2011
Council Meeting

Dear Mayor and Village Council:

8. First Reading A. Resolution: Authorize a Contract with J.S. Riemer, Inc. – Watershed Improvements, 2nd and Cumnor Project

Please explain the \$13,189,000 in future years.

This amount was the cost estimate for all remaining work identified to be done in this subwatershed after this project. This number reflects the estimated costs for all projects for this subwatershed identified in the Watershed Infrastructure Improvement Plan (WIIP).

What is the current status of the Stormwater Fund if this measure passes?

If this measure passes, the Stormwater Fund will have approximately \$10 million available for future projects. These are the remaining proceeds from the 2008 bond issuance.

Is there a Contractor Report Card for the contractor?

Yes, the Contractor Report Card is attached. The evaluation was completed by IDOT, which led the Prairie Avenue project.

Manager's Report Question

When will Archived Agenda and Minutes again be available on the Village Website to users of updated Internet Explorer?

Staff is researching the causes of the incorrect display of that section with Internet Explorer 9, the newest version of the browser. Staff tested the Archived Agenda and Minutes section using IE9 and encountered the same 'missing section' issue. Staff will continue to seek a resolution to the problem and will provide an update within two weeks.

Is Pace planning to cut service on the routes with low ridership?

No, staff contacted Pace and they are not planning to cut service on routes with low ridership. According to Pace, its planning department continually evaluates the performance of routes and may recommend adjustments to routes if needed, but they would contact the Village to discuss this before moving ahead.

Sincerely,

David Fieldman
Village Manager

Cc: Department Directors
