SYNOPSIS
A motion is requested to authorize execution of a twelve-month contract with Thompson Elevator Inspection Service, Inc. of Mount Prospect, Illinois for elevator inspection, testing, and plan review services in the estimated amount of $22,800.

STRATEGIC PLAN ALIGNMENT
The goals for 2011-2018 include Exceptional Municipal Services.

FISCAL IMPACT
The FY14 budget provides $30,000 for this annual cost within the General Fund. This amount is completely reimbursed through elevator inspection fees passed along to the property/business owner.

RECOMMENDATION
Approval on the January 21, 2014 consent agenda.

BACKGROUND
The Village’s current contract for elevator inspection services has expired. In accordance with the Village’s Purchasing Policy staff issued a Request for Proposal to firms qualified by the State of Illinois to provide elevator inspections, conduct pressure tests and perform reviews on behalf of the Village of Downers Grove. Three firms submitted proposals and a summary of the cost portion of their proposals is provided below.

Staff recommends awarding the contract to Thompson Elevator Inspection Service based on its history of excellent customer service and exceptional qualifications. The firm is not raising its rates from its 2010 contract while continuing to perform plan reviews free of charge. Thompson also keeps the Village informed of important legislative issues and has provided critical, extensive assistance in preparing the submittals for our 2012 Illinois Elevator Safety Program Agreement renewal with the Office of the State Fire Marshal. Thompson also provides specific appointment times for inspections.

Thompson has been in business for over 35 years and specializes only in inspections. They perform inspections for 133 communities in DuPage, Cook, Kane, Lake, McHenry and Will Counties. Thompson’s proposal clearly stated the qualifications of their inspectors, who all hold the needed certifications. Thompson has also indicated greater staffing levels & resources dedicated to the Village. Staff recommends renewal of the contract with the incumbent Thompson Elevator Inspection Service.
Elevator Inspection Services Inc. provided the lowest inspection fee; however, based on previous experience with the Village, staff does not recommend awarding the contract to the firm. EIS provided elevator inspection services for the Village from 2007-2010, but at a significantly higher rate than they are proposing now. There were also complaints from businesses about the service EIS provided regarding the frequency of new inspectors and their unwillingness to provide appointment times for inspections.

Staff believes Thompson provides the best service for this contract at a reasonable cost and recommends awarding the contract to Thompson.

The Village will pay the Proposer's costs actually incurred as of the date of receipt of notice of default. Upon termination, the Proposer will deliver all documents and products of whatever kind, and their reproducible originals related to the project, which have been produced to the date of the notice of termination.

26. SEVERABILITY OF INVALID PROVISIONS
26.1 If any provisions of this Contract are held to contravene or be invalid under the laws of any state, country or jurisdiction, contravention will not invalidate the entire Contract, but it will be construed as if not containing the invalid provision and the rights or obligations of the parties will be construed and enforced accordingly.

2. LETTER TO MUNICIPALITIES
To Whom It May Concern:

Enclosed is a copy of the fee schedule from Thompson Elevator Inspection Service from 1975 as well as an inspection report from Thompson Elevator from 1976. As you can see inspection fees for a routine/periodic inspection were $17.50.

Current inspection fees, as bid by our competition, are approaching 1975 prices. This aggressive return to 1975 prices is being pursued to secure the right to witness the state required category test. The witness fee is not regulated by an authority having jurisdiction.

The code inspection, municipality enforced, is now becoming an afterthought just to win the contract.

What kind of routine code inspection will the municipality be getting for $17.50 or $18 or $25 and what kind of inspection will you receive for no charge at all? We, at Thompson Elevator, cannot and will not bid an inspection at sub-par prices. We will not do a disservice to the following inspection recipients by agreeing to perform an inspection that cannot be completed for the sub-par price it takes to win a bid:

- municipalities we currently work with
- elevator owners within those municipalities
- riding public

The State approved 125 item inspection report requires a thorough inspection compared to a 25 item or less inspection report used in 1975. In a court of law, Thompson Elevator will not be put in a position to have to answer the question “what kind of inspection do you perform for $18 or $25?” Nor do we want any of our municipal clients to have to answer “why did you hire a company that performs inspections for a below national average fee?” to the riding public and the building owners within their community, as well as a court of law. Keep in mind elevators in 1975 were not as complex as they are today. An inspection today requires a more thorough inspection compared to an inspection in 1975. Codes have changed to reflect the equipment changes and complexity.

With Thompson Elevator you will receive outstanding, reliable, accountable service. All calls are returned within the day and resolved in a timely fashion. This service covers technical expertise on all technical questions to your municipal staff as well as others associated with the project such as architects, engineers, general contractors, etc. With these calls being directed to, and resolved by, Thompson Elevator, your municipality’s staff is freed to accomplish other work. Also, Thompson Elevator offers technical support to your community’s building owners on how to get non-compliance issues resolved and any other related issue, at no charge.

Our bid reflects the best possible price our company can offer to perform a code required safety inspection, while still remaining well below the national average $150.00 code inspection fee and $100.00 certificate fee. The inspection we perform is in the interest of public safety and represents the municipality which employs Thompson Elevator Inspection Service.

Respectfully,

Catherine Thompson
President

COVER LETTER AND SERVICE PROVIDED
December 18, 2013

Village of Downers Grove
801 Burlington Avenue
Downers Grove, IL  60515

Dear Council:

Thompson Elevator Inspection Service, Inc. (TEIS) recognizes the need to use your time efficiently, therefore, the following highlights the premier, elite services which our company can offer to the Village of Downers Grove.

As long standing members of the Suburban Building Officials, Northwest Building Officials and South Suburban Building Officials, we continue to advocate on the behalf of code enforcement representing the International Building Code, as well as the ASME Elevator Code, the Illinois Accessibility Code, the National Electric Code and the NFPA Codes, as applicable. In addition, we attend all Illinois Elevator Safety Board meetings locally, as well as in Springfield, sharing with you issues/concerns that arise. We are considered a stakeholder with the Illinois State Fire Marshal as it pertains to the Elevator Safety Act.

Knowing we are all fiscally aware of the responsibility to the constituents your municipality represents, we offer competitive pricing to the building owners. Unlike our competitors, we use a more stringent form, approved by the Illinois State Fire Marshal, for municipal code inspections.

Established in 1975, we are the longest established inspection service in the suburban Chicagoland region. Currently, our firm holds 133 municipal inspection contracts in excellent standing in communities nearby. We welcome you to verify our consistent, reliable professional service and consider bringing our company onto your code enforcement team.

Thank you for the opportunity. We appreciate your time invested in making the right choice for the community’s conveyance safety. Should you have any questions before, during or after your review and evaluation, please call Patty Young at our office (ph: 847-296-8211/email: patty@thompson elevator.com) at your convenience.

Respectfully submitted,

Catherine Thompson

3. INTRODUCTION

HISTORY AND OVERVIEW
**History and Overview of the Company**

The founder, John J. Thompson, had been in the elevator business since 1960. His work experience began as a mechanic in construction, service, and maintenance for Goetz, Trimon, Gallagher & Speck Elevator Company. He used his knowledge and expertise that he gained to become an instructor for the NEIEP Elevator Education School from 1970 to 1974.

Before starting Thompson Elevator Inspection Service, he continued working in the industry for Armor Elevator as a superintendent and mechanic in construction, service, and maintenance for eight years, and was also a volunteer fireman for the Village of Mt. Prospect from 1972 to 1980.

In 1975 the business was started to provide safety inspections of passenger, freight, escalators, wheelchair lifts, dumbwaiters, and material lifts for municipalities, school districts, and individual buildings in the Chicago metropolitan area.

Many of our inspectors worked directly with the company’s founder in their early years within the elevator industry as helpers, mechanics, and/or adjustors training to be inspectors. *Our inspectors have over 800 years of work in the industry combined with an average of 31 years per inspector.*

Our inspectors are QEI certified and State licensed to be part of our inspection team. Each new inspector undergoes training with many different field inspectors before being assigned inspections.

Since 1975, Thompson Elevator Inspection Service has provided the following services to our clients:

- New construction (or renovated/modernization work) plan reviews
- New construction (or renovated/modernization work) inspection
- Annual/Semi-annual code inspections
- Certification
- Provide technical and legislative update workshops
- Offer fire rescue/entrapment classes to local Fire Department

Our company’s inspection program would follow the current codes provided by your community and the State of Illinois, and provide all State approved inspection forms for code inspection for any of the following types of commercial and residential equipment that your community has and might install in the future:

- Elevators
- Escalators
- Dumbwaiters
- Dock Lifts
- Freight
- Material Lifts
- Scissors Lift
- Vertical Platform Lifts
- Casket Lifts
- Wheelchair Lifts

The office staff supports the following people/organizations: the client, the building owners, the public, the fire department, architects, engineers, general contractors, smoke/alarm contractors, electricians, plumbers, and elevator companies. This support ranges from answering basic questions such as “how to register an elevator”, to code questions as to “where does it say this”, to technical questions for a new construction or modernization projects. Our staff works with each of these people to address their issues/concerns. These non-fee services of support are the customer service and common courtesy our founder instilled in his employees.

LETTERS OF RECOMMENDATION
October 28, 2009

Re: Thompson Elevator

To Whom It May Concern,

Consider this letter to be documentation of my complete satisfaction for the plan review and inspection services that Thompson Elevator has offered the City of Park Ridge.

Even as a board member of Northwest Building Officials and Code Administrators, a few years back, Thompson Elevator assisted our chapter of over 200 municipal building officials in understanding the elevator industry as well as the legislative evolution that was occurring at that time.

As the City of Park Ridge Building Administrator, I have witnessed Thompson Elevator professionalism and completed dedication to the industry. A few years ago, Mr. Thompson personally attended a meeting I had with my City Officials concerning the new technology of Machine Room-less Elevators. He was a huge asset to the meeting. Just recently The City of Park Ridge had experienced a disable elevator that served a high-rise elderly home. This was the only elevator available for the tenants. Thompson Elevator not only rushed their review but also altered their inspection schedule to accommodate this occurrence.

I have had nothing but excellent customer service from Thompson Elevator since my entry in this industry 14 years ago. Please contact me should you have any questions at 847-318-5322.

Respectfully,

Steven L. Cutais, M.C.P.

To Whom It May Concern;

Thompson Elevator Inspection Service has been inspecting elevators for the Village of Oak Lawn for over 30 years. I have had the privilege of working with Thompson Elevator Inspection Service for the last 15 years. During that time, John Thompson has proven to be a very dependable and professional consultant. He is a staunch advocate for elevator safety. John has been very active in monitoring and creating new legislation in the elevator field. He does an outstanding job keeping our community up to date and aware of all the new code changes. The office staff has proven themselves knowledgeable, helpful and always available for questions. Plan reviews are performed in a proficient and timely manner. The inspectors are courteous and professional. Thompson Elevator Inspection Service has earned the respect of this Office and it would be an honor to recommend them to any Community seeking an elevator inspection service.

Yours truly,

LETTER OF RECOMMENDATION

To Whom It May Concern:

As the Building Commissioner for the Village of Mundelein, I have worked with Thompson Elevator Inspection Service for over fifteen years. Although my personal experience with Thompson Elevator Inspection Service has only been 15 years, the Village of Mundelein has had the privilege of close to twenty-five years of reliable and trustworthy service from them.

Thompson Elevator Inspection Service experience and knowledge of elevators and their safety requirements can be measured not only by the successful inspection business, the long career in the elevator profession that Thompson family has had, the integrity and professional service they provide to many local Municipalities, but also by the professional accomplishments and certifications they have earned over the years. Thompson’s reputation in the industry is un-paralleled.

The Village of Mundelein and I continue to have a great relationship with Thompson Elevator Inspection Company. Knowing that they are ensuring the residents and users of elevators within the Village of Mundelein with the highest level of safety is very comforting.

In today’s market place, when we are all asked to do more with less, having Thompson Elevators Inspection Service handle the Village’s inspection program is especially important. It’s virtually effortless.

I would highly recommend Thompson Elevator Inspection Service to anyone.

Sincerely,

To Whom It May Concern:

Please accept this letter as my recommendation of Thompson Elevator Inspection Service, Inc. as they have been the third party inspector for Hoffman Estates for over 30 years for all conveyance units. The plan reviews and inspections are completed in a timely manner with all paperwork being submitted in a legible and organized format.

Thompson Elevator Inspection Service is licensed with the State of Illinois, Office of the State Fire Marshal, Elevator Safety Division and employs QEI certified inspectors, licensed by the State of Illinois. Difficulties / Positives: EIS does not set appointments due to the sheer number of conveyance inspections and re-inspections, which is a source for some occasional mix-ups. Record keeping seemed to be an occasional problem. Occasional complaints about new inspectors. They remain technically highly proficient and have kept the Village informed regarding related code changes or legislation. They maintained the same fee for all 3 years of the current contract to the benefit of the Village and our customers.
