**Drainage Area 14 Neighborhood Meeting**

A neighborhood meeting was held at Public Works on Thursday, March 16, to discuss drainage improvements in the area of Jefferson and Middaugh, as identified in the 2014 Stormwater Project Analysis Report. The purpose of the meeting was to provide information to the residents about the proposed drainage improvements, explain the Village-resident partnership required easements for a portion of the project and provide a timeline for the project and obtain feedback from residents. Several residents provided comments regarding the proposed drainage improvements. Staff is currently reviewing the residents' comments for potential incorporation into the final design.
