

Staff Responses to Council Questions

June 11, 2019

5. Consent Agenda, A. Bil 2019-8211 - Bills Payable: No. 6460, June 11, 2019

There are some 31 entries for AT&T Mobility National Accounts under a large number of departments including "Life Insurance." Why is this expenditure divided in this way?

There is a single AT&T Mobility account for the entire Village of Downers Grove that is centrally managed by Village staff. To assist with tracking and controlling these expenses, staff uses multiple entries displayed on the Bills Payable report. Each department is responsible for budgeting expenses for cell phone plans and equipment to ensure costs are managed appropriately. The Life Insurance program is under the Human Resources Department budget, and is the program used by the department to budget for cell phone plans and equipment.

7. First Reading, C. ORD 2019-8191 - An Ordinance Regulating Illicit Discharge Detection and Elimination

Does the Village website have information regarding the proper disposal of items such as used motor oil, latex and oil paint and other similar items?

Yes, the Village of Downers Grove's website has a [Hazardous Waste, Electronics, and Miscellaneous Recycling](#) webpage that provides information on how to properly dispose of a variety of items in addition to providing locations where specific items can be dropped off for proper disposal.

This webpage also has related links such as the [DuPage County Recycling Page](#), which provides a recycling guide, information about special one-day recycling events, and locations where specific items can be dropped off in the DuPage County area.
