Contract Amendment - Purchase of Liquid Deicer	Andy Sikich Public Works Director

SYNOPSIS

A resolution has been prepared to approve a two-year contract extension with SNI Solutions Inc. of Geneseo, Illinois for the purchase of Geomelt liquid deicing products in an amount not-to-exceed \$130,000.

STRATEGIC PLAN ALIGNMENT

The goals for 2021 to 2023 include *Exceptional Municipal Services*.

FISCAL IMPACT

The approved FY23 Budget includes \$65,000 in the General Fund for the purchase of liquid deicer. The remaining funds will be budgeted in FY24.

RECOMMENDATION

Approval on the January 10, 2023 consent agenda.

BACKGROUND

A key component of the Village's snow and ice removal program is the use of liquid deicer. This can be applied directly to the pavement in advance of a winter storm (anti-icing), or during and following a storm (de-icing). By itself, road salt is ineffective below 15° to 20° Fahrenheit and coating the salt with liquid deicer before it is applied to the roadway provides several important advantages including:

- Reduction in corrosion to roadway surfaces, equipment and vehicles up to 80%
- Improved melting of snow and ice to -25° to -30° Fahrenheit
- Decreased salt usage by up to one-third
- Remains on the roadway for up to five days

This winter season would mark the thirteenth year the Village has included a liquid deicer as a component of the program, and the eighth year that Geomelt would be used. Staff continually evaluates changes within the marketplace and believes that Geomelt provides good performance with advantages in stockpile treatment efficiency and local availability that makes it more economical and effective than other alternatives. Geomelt products have been independently tested to ensure their efficacy and environmental effects and meet the strict specifications of the Pacific Northwest Snowfighters (PNS).
