The Comprehensive Annual Financial Report (CAFR) of the Village of Downers Grove for the year ended December 31, 2016, is hereby submitted. State law, as well as local ordinances, requires that the Village publish within six months of the close of each fiscal year, a report on its financial position and activity presented in conformance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

Responsibility for both the accuracy of the data presented and the fairness of the presentation, including all disclosures, rests with the Village management. We believe the data as presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the Village's financial position and changes in financial position as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain maximum understanding of the Village's financial condition have been included. The organization and content of the report follows the standards for annual financial reporting promulgated by the Governmental Accounting Standards Board (GASB). To provide a reasonable basis for making these representations, management of the Village has established a comprehensive internal control framework to protect the assets of the Village and to compile sufficiently reliable information for the preparation of the Village of Downers Grove's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's internal control framework has been designed to provide reasonable rather than absolute assurance that the financial statements are free of material misstatements. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

The Village's financial statements have been audited by BKD, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Downers Grove for the year ended December 31, 2016, are free of material misstatements. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluation of the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Village's financial statements of the year ended December 31, 2016, are presented fairly in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management Discussion & Analysis (MD&A). This letter of transmittal is designed to complement that analysis and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

This report includes all financial activity for the funds, and departments for which the Village is financially accountable. The criteria used to determine financial accountability is defined in Note 1 of the Financial Statements, on page 3-12. The Police and Firefighters' Pension Funds each have a separate Board that administers their respective fund resources and uses. The Downers Grove Library has a separate Board that is appointed by the Village Council and is reported as a discretely presented component unit. Other local governments that serve the Downers Grove community do not qualify as entities for which the Village is accountable. These governments include the Downers Grove Park District, the Downers Grove Sanitary District, all school districts, and the Downers Grove Township. Therefore, the financial activities of these entities are not included in this report.

PROFILE OF THE VILLAGE OF DOWNERS GROVE

The Village of Downers Grove, which has a land area of about 14.4 square miles, is located in DuPage County and is 22 miles west of Chicago. DuPage County is the second most populated county in Illinois, after Cook County. The median household income in the Village is \$83,513. Along with several major arterial highways, three Burlington Northern commuter train stations are located in the Village; these provide commuters about a 25-minute train ride to and from Chicago and easy access to the entire metropolitan area.

The resident population is 49,732; however, the Village's corporate business parks and shopping districts raise the daytime population and economic activity, providing the Village the benefit of a significant level of sales tax revenue. A review of the retail expenditure information suggests that the Village attracts residents from surrounding communities to support the sales tax income. The property tax base is 76 percent residential, 21 percent commercial, and 3 percent industrial. The ten leading commercial property tax payers are from a diverse economic base and account for about 6.9% percent of the total tax base.

The Village of Downers Grove was originally settled in 1832 and was incorporated on March 31, 1873. Today, the Village operates under the Manager form of government. As defined by Illinois statutes, the Village is a home-rule community and provides a full range of municipal services to its residential and commercial customers. These services include police

and fire protection; building code and fire prevention inspection services; emergency 911 dispatch service; paramedic services; water services; a commuter and residential parking system; community development services; and the construction and maintenance of streets, stormwater, and other municipal infrastructure.

FACTORS AFFECTING FINANCIAL CONDITION

Standard & Poor's (S&P) AAA Bond Rating:

The Village continues to benefit from the AAA bond rating issued by Standard & Poor's. This is the agency's highest rating. Standard & Poor's acknowledged the efforts of the Village's Long Range Plan and exceptional management practices as contributing factors for the AAA rating. All Downers Grove residents and businesses benefit from this as the Village will be able to issue debt and refinance bonds at a lower cost.

Local Economy:

Major revenue sources include property taxes, sales taxes, utility taxes and state income taxes.

The Village has a mixture of office, retail and industrial employment. The unemployment rate in the Village has remained relatively steady, decreasing from 4.4% percent in 2015 to 4.3% percent as of December 31, 2016. The EAV for the Village was \$2,313,407,554 for the 2016 tax levy, up 6.9% from a year ago. EAVs are expected to continue to increase as housing values that declined during the recession are now increasing.

The Village of Downers Grove maintained a strong financial position during the year. Building activity remains strong in both the commercial and residential markets. Although Sales tax revenues declined in 2016, the Village continues to provide municipal services in a fiscally responsible manner, identifying and implementing innovative ideas throughout the organization. The Village's financial policies and programs have resulted in the retention and expansion of existing businesses in the community as well as attracting new businesses.

Facilitated Downtown Redevelopment:

- Mixed-use development under construction at Main & Maple; 115 apartments.
- Burlington Station at Forest and Gilbert under construction; 89 apartments.
- Oakley Home Builders completed renovations to the former Carlson Paint building at 5216 Main Street; the second floor has company offices and the first floor was leased to a fitness center.
- Projected \$5.5 million in property tax increment revenue to Downtown TIF.

Economic Development:

The Downers Grove Economic Development Corporation (EDC) is an independent, not-for-profit entity supported by the Village of Downers Grove and over 20 private-sector businesses. The Village is committed to strengthening and enhancing the local economy through the EDC's efforts to attract jobs and employers to Downers Grove, as well as retain

established businesses.

2016 Economic Development Successes

- **Alter Brewing Company** completed the build out of their new craft brewery at 2300 Wisconsin
- **Burlington Coat Factory** has leased space at 1220 75th Street
- **Chipotle** opened their second location in Downers Grove at 1203 Ogden Avenue
- **Duluth Trading Company** opened their first Illinois store at 2966 Finley
- **Ensono** signed a new lease for their 115,352 sq. ft. data center at 1501 Opus Place
- **Ensono** completed the build out for their new 84,259 sq. ft. corporate headquarters at 3333 Finley
- **Five Below** opened a new store at 1554 Butterfield Road
- **Grand Appliance and TV** opened new store at 1205 Butterfield Road
- **Hirose Electric USA** relocated their North American Headquarters from San Jose California to Downers Grove at 2300 Warrenville Road
- **Kirkland's** has submitted plans to open a new home décor store at 1552 Butterfield Road
- **Lacey Creek Supportive Living** opened their new center at 4200 Lacey which features 120 residential units
- **Max Holdings LLC** broke ground on the redevelopment of 640 Ogden to construct an 11,200 sq. ft. multi-tenant building featuring three lease spaces
- **Nicholson Porter & List** received approval for a new Class A office building at 2200 Warrenville Road
- **Nossa Brazilian Grill** has leased space at 1340 Butterfield Road
- **PLZ Aerospace Corporation** is moving its corporate headquarters to 2651 Warrenville Road
- **Packey Webb Ford** broke ground for their new dealership at 1815 Ogden
- **Skechers** opened a new store at 1306 Butterfield Road
- **Star Motors** received approval for a redevelopment of their auto dealership at 1723 Ogden Avenue
- **Trio Restaurant & Banquets** will open at 980 W 75th Street
- **Weathershield LLC** completed the build out of their new office space at 1415 Centre Circle

Economic Incentive Agreements

Sales tax rebate agreements are an important component of Downers Grove's economic development strategy. All retail stores generate sales tax revenue which the Village uses to pay for public services. National retailers and car dealerships generate significant tax revenues, create jobs, and serve as catalysts for other business development. Competition among local communities for new businesses is fierce and incentives often provide the edge needed to create new opportunities and revenues where there otherwise would be none.

Long Range Plan:

The Village's Long Range Plan (LRP) helps to ensure the present and future financial stability of the Village organization. The plan is derived from a financial analysis of the Village's expenses, revenues and debt capacity and takes into consideration current and future economic conditions. The plan is a key component of financial decision making and planning of the annual budget. The LRP has enabled the Village to accomplish the following:

- Continue investment in needed public infrastructure improvements
- Maintain adequate financial reserves
- **Maintain AAA Bond Rating from *Standard and Poor's (S&P)*.** A high rating enables the Village to borrow money at a low cost, affirming the Village's economic stability.

Managed General Fund:

In FY16, the Village added \$181,000 to the General Fund fund balance. Although revenues from Sales Taxes and Income Taxes dropped in 2016, net income remained positive by controlling expenses.

Refunded Stormwater Improvement Bonds:

The Village refinanced \$7.5 million in General Obligation Bonds issued for Stormwater Improvements. The refinancing saved \$1,000,000. The Village saves money by reducing the annual payments on the bonds due to interest rates that are lower now than when the bonds were issued.

Retained Stormwater Fees:

Downers Grove asked residents, through referendum questions, if Stormwater Management should continue to be funded through the stormwater utility fee, or property taxes. The referendum results were to continue using the stormwater utility fee.

The utility model represents an equitable method to collect revenue from those properties that place a demand on the system. Revenue is generated by charging all property owners a monthly stormwater fee, based on the property's impact to the stormwater system.

There are multiple benefits to implementing a fee based system:

- All properties in the Village share in the cost of operating and maintaining the stormwater system.
- Fees provide a predictable and sustainable funding source.
- A heightened sense of awareness of the stormwater management system is created.
- Property owners are encouraged to reduce the amount of run-off from their property by installing rain barrels, rain gardens and detention basins, and may be eligible for a credit to their stormwater fee.

Created Plan to Increase Sales Tax Revenue:

In 2015, the Village Council identified *Create an Economic Development Plan to Enhance the Sales Tax Base* as a Top Priority Action Item. The plan was based on an AECOM Competitive Retail Alignment Study commissioned by the Downers Grove Economic Development Corporation (EDC). AECOM completed a retail market analysis and assessment of Downers Grove's performance in the trade area. Key components of the plan were:

- Recommended Retail Segments for Attraction and Retention
- Recommended Tools for Attraction and Retention
- Locations for Retail Development

Received \$536,000 in Grants:

The Village has made it a priority to seek grant funding for capital projects. A few of the grants received in 2016:

- ***Community Development Block Grant*** - \$232,000
These funds are for the purchase of land for stormwater.
- ***Department of Justice Federal Asset Forfeiture Funds*** - \$128,000
- ***Multiple Agencies*** - \$67,000
For Public Safety Programs

MAJOR INITIATIVES

The Village staff, following specific directives from the Mayor, Village Council and the Village Manager, has been involved in a variety of initiatives throughout the year. The strong commitment to financial stewardship and innovation has resulted in the delivery of services in a fiscally responsible and cost-effective manner.

Preserving Historic Structures:

The Village Council adopted a new Historic Preservation Ordinance in 2015. The new ordinance was the result of extensive community participation at both the Architectural Design Review Board (ADRB) / Ad Hoc Subcommittee on Historic Preservation meetings and Village Council meetings. Changes were implemented to make the preservation of historic structures easier than ever. As a result of these changes and increased public awareness, nine properties were landmarked in 2016.

Launched Downtown Recycling Program:

Blue topped recycling cans were placed at locations throughout the downtown to recycle bottles, cans and paper. This program supports environmental sustainability and reduces refuse going to the landfill.

Partnerships:

Collaborated with Other Local Governments

In the spirit of furthering communication and collaboration among the governments that serve the residents of Downers Grove, the Village hosted a Super Retreat on September 14, 2016, at Downers Grove South High School. Participating agencies included:

- Community High School District 99
- Downers Grove Grade School District 58
- Downers Grove Park District
- Downers Grove Sanitary District
- Downers Grove Township
- York Township
- Downers Grove Library
- Downers Grove Economic Development Corporation (EDC)
- Village of Downers Grove.

Joined DU-COMM

In 2016, the Village became members in DuPage Public Safety Communications (DU-COMM) for the provision of emergency and related dispatching. This membership:

- Maintains the level of service currently provided to Downers Grove residents
- Achieves the Village's Top Priority Action Item Identify and Implement a Major Consolidation
- Is consistent with the State of Illinois and DuPage County consolidation efforts
- Reduces the total cost and increases the efficiency of providing emergency dispatching services at the County level
- Reduces the size and cost of the planned improvements to the Downers Grove Police Station

The transition will be complete in April 2017.

Prepared the Region for Emergency Response

On Wednesday, August 31, 2016, the Village of Downers Grove, in cooperation with the Burlington Northern Santa Fe (BNSF) and DuPage County Office of Homeland Security and Emergency Management (DuPage OHSEM), conducted a training exercise along the railroad tracks. The objective of the exercise was to demonstrate an exercise of sufficient intensity to challenge management and operations and to test the knowledge, skills and abilities of individuals and organizations involved. This exercise:

- Included collaboration with over 30 agencies
- Developed, tested and trained on Hazmat railway emergency response
- Increased public awareness of emergency response
- Complies with FEMA preparedness requirements

Infrastructure Investment:

The Village's strategic goal to provide Top Quality Infrastructure requires a commitment to ongoing investment in maintenance, as well as in replacement or new infrastructure as

necessary. In 2010, when revenues were impacted by the recession, the Village continued making investments in infrastructure, instead of diverting funding to cover the cost of operations.

In support of this commitment, \$15.0 million was invested in 2016:

- 8.5 miles of streets were resurfaced
- 12 stormwater improvement projects
- 885 sidewalk segments repaired
- 8,100 feet of watermain replaced

Stormwater Cost-Share Projects

The Village offers financial assistance to residents seeking to make stormwater improvements on their private property. To qualify, the proposed improvement must mitigate existing flooding conditions such as structural flooding of a house/garage or non-structural flooding over multiple properties. Flooding conditions must be present on more than one property to receive reimbursement. Reimbursements typically vary between \$1,500 and \$6,000. In 2016, the Village participated in thirteen stormwater cost-share projects, which improved local drainage for forty-four homes.

Stormwater Maintenance Projects

Ongoing maintenance is required for the Village's stormwater system. In 2016, this included 7,500 feet of re-ditching, cleaning of 18,700 feet of storm sewers and street sweeping.

Engaged the Community:

In 2016, the Village launched short-form video communications with award-winning results. Topics included

- Downtown Recycling 7,341 views
- Historic Preservation 4,250 views
- Stormwater YOUtility 3,988 views
- Learn not to Burn 3,812 views
- Snow and Ice Control Plan 2,351 views
- Night at the Firehouse 2,348 views
- Flag Retirement 2,096 views

Recognized Leadership:

Mayor Martin Tully Receives Leadership Award

Mayor Martin Tully was recognized as the 2015 Governmental Leader of the year by the DuPage Mayors and Managers Conference (DMMC). Mayor Tully served as President of the DMMC from 2014-15.

#19 Greenest Fleet in North America

Downers Grove was selected as the #19 Greenest Fleet in North America. Each year the Government Green Fleet Award ranks the top 50 fleets for their dedicated use of alternative fuel and hybrid vehicles. The award is supported by the Clean Cities Coalition, which is operated by the U.S. Department of Energy.

DuPage Mayors and Managers Conference (DMMC) Municipal Innovation Celebration Winner

Downers Grove received this award for best presentation for the Rain Barrel Sale video.

3CMA Award of Excellence

Downers Grove received this award in the category ‘TV and Video Promotional Video’ for the Rain Barrel Sale.

Sustainability Practices Award

The Village of Downers Grove was recognized with the 2016 Sustainability Practices Award by the Suburban Branch of the American Public Works Association. The award recognizes the commitment and practices the Village has taken to make sustainable practices a cornerstone of the community. The Village has used input from the Environmental Concerns Commission, as well as encouragement from management to aid in directing the organization towards these green initiatives.

Examples of these initiatives include sustainable construction practices, recycling, green fleet practices, water conservation efforts, stormwater pollution prevention, and energy conservation.

RELEVANT FINANCIAL POLICIES

The Village has established several specific policies to improve the overall well being of the residents, continue to meet immediate and long-term service objectives, and enhance the financial capability of the Village.

Budgeting:

The Village adopts an annual budget. Due to careful planning, meaningful discussions and public input, Downers Grove is well-positioned for the future. The FY17 Budget was prepared and approved in 2016. The FY17 Adopted Budget demonstrates the Village’s commitment to continuous improvement and innovation as well as to the provision of exceptional municipal services at a value to residents, businesses and other stakeholders.

Key components of the FY17 Budget:

- Balanced General Fund with Recommended Fund Balance
- No Increase for Property Tax Levy for Operations
- Property Tax Levy Increase for Required Contributions to Public Safety Pensions
- Transition to DU-COMM
- Shift Staffing to Community Development and Stormwater Management

- Funding to Implement the Facility Sustainability Plan
- Continues Investment in Infrastructure
- Stormwater Fund Revenue Decision

Capital Planning:

The Village prepares a comprehensive multi-year Capital Plan which lays out in detail all planned capital projects over a five year period. The Village Council dedicated certain revenues to fund capital projects. Because of this policy, the Village has been in a position to continue to make needed investments in Infrastructure.

Other Financial Policies:

Some of the more significant policies include:

- Investment Policy-providing for market investment returns while protecting principal
- Purchasing Policy-setting forth procedures for ensuring that the best products and services are received at the lowest possible cost
- Fund Balance Policy-setting forth reserve levels to be maintained to ensure proper working capital and protect against unforeseen events

The Village's strong financial policies are in part responsible for maintaining the Village's AAA rating, allowing the Village to borrow at the lowest possible cost for infrastructure investment.

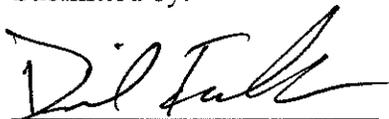

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Downers Grove for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2015. A copy of this award is located in the introductory section of the financial statements. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. The Village also received the GFOA Distinguished Budget Presentation award for its 2016 Annual Budget. This is the seventh consecutive year that the Village has been honored with this significant achievement, which reflects the commitment to meeting the highest principles of governmental budgeting.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire Finance department. We want to take this opportunity to thank Carol Hogan, Assistant Finance Director, Robin Lahey, Finance Manager, Daiva Sheldon, Accountant, and the members of the Finance team for all their efforts. We also wish to express appreciation for the policies and decisions provided by the Village Council, as reflected in this report.

Village of Downers Grove, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information for the Village of Downers Grove, Illinois, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Village of Downers Grove, Illinois as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary comparison information for the General Fund, and pension and other postemployment information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Downers Grove, Illinois' basic financial statements. The introductory section, combining and individual fund financial statements and schedules, supplemental information and the statistical section as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The 2016 combining, individual fund, capital asset financial statements and schedules, component unit – Downers Grove Library, and supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining, individual fund, capital asset financial statements and schedule, component unit – Downers Grove

Library, and supplemental information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 9, 2017, on our consideration of the Village of Downers Grove, Illinois' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

BKD, LLP

Oakbrook Terrace, Illinois
June 9, 2017

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

This discussion and analysis of the Village of Downers Grove's (the 'Village') financial performance provides an overview of the Village's financial activities. Please read it in conjunction with the Transmittal Letter (beginning on page 1-4) and the Village's financial statements (beginning on page 3-1) and the related notes to the basic financial statements which begin on page 3-12.

Financial Highlights

- The Village's net position increased from \$76.8 million as of December 31, 2015 to \$78.1 million as of December 31, 2016.
- Governmental revenues increased \$1.1 million. Revenue increases included property tax and grants, with decreases in sales tax, telecommunications tax and income tax revenues.
- Governmental expenses increased by \$3.2 million due primarily to pension expense and additional purchases in the Equipment Replacement Fund in 2016 that were deferred in 2015.
- Revenues for business-type activities decreased by \$1.0 million due to capital grants received in 2015; a Metra grant of \$.9 million for parking lot reconstruction, and \$.6 million from FEMA for Hazard Mitigation.
- Business-type expenses increased by \$1.4 million. This increase is due primarily to an increase in maintenance activities in the Stormwater Fund.
- No new debt was issued during the year ended December 31, 2016, and in March the Village refunded \$7.5 million General Obligation Bonds issued for stormwater improvements for a net present value savings of \$1.0 million.

Using this Annual Report

This annual report consists of a series of financial statements. The Village's basic financial statements are comprised of three components, 1) Government wide financial statements, 2) Fund financial statements and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements (see pages 3-1 - 3-2) are designed to provide readers with a broad overview of the Village's finances, in a manner similar to private-sector business. All governmental and business-type activities are consolidated into columns which add to a total for the Primary Government.

The Statement of Net Position (see page 3-1) reports information on all of the Village's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between those reported as net position. Over time, increases or decreases in

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities (see page 3-2) presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements categorize functions of the Village that are principally supported by taxes and intergovernmental revenues (Governmental Activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (Business-type Activities).

The Governmental Activities reflect the Village's basic services, including public safety, public works, community development, interest on debt and general government administration. Property taxes, state sales tax, local utility tax and shared state income taxes finance the majority of these services. The Business-type Activities reflect private sector type operations, including Waterworks, Stormwater and Parking operations where the fee for service typically covers all or most of the costs of operation, including depreciation.

The government-wide financial statements include not only the Village, (or Primary government), but also the legally separate entity or component unit for which the Village is financially accountable (Downers Grove Public Library). The Downers Grove Public Library, is shown in a separate column on these statements. Financial information for the Library is also presented on page 6-1.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds in the Village can be divided into three categories; governmental funds, proprietary funds and fiduciary funds.

Governmental funds (page 3-3 and page 3-5)

These funds are used to account for essentially the same functions reported as activities in the Government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary funds (pages 3-7 - 3-9)

The Village of Downers Grove maintains two different types of proprietary funds: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for its waterworks, stormwater and parking operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Village's various functions. The Village uses internal service funds to account for its fleet service, vehicle and equipment replacement and self-insurance. Proprietary funds provide the same type of information as the government-wide financial statements only in more detail. The proprietary fund financial statements provide separate information for the Waterworks, Stormwater and Parking funds, all of which are considered to be major funds of the Village. Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

Fiduciary funds (pages 3-10 - 3-11)

The fund financial statements also allow the government to address its Pension Funds (Police and Firefighters') and agency fund. These funds represent trust responsibilities of the government; the assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Financial Statements.

Notes to the Financial Statements (pages 3-12 - 3-70)

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information (pages 4-1 - 4-12)

In addition to the basic financial statements and notes, this report also presents required supplementary information concerning the Village's budgetary comparisons of the

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

general and major special revenue fund and status in funding its obligations to provide pension benefits to its employees.

Combining and individual fund financial statements and schedules (pages 5-1 - 5-37) are presented following the supplementary information on pensions.

Supplemental information (pages 7-1 - 7-15) provides a schedule of insurance in force and schedules of long term debt requirements.

The statistical section (pages 8-1 - 8-19) presents comparative and trend data, generally presented on a multi-year basis, information concerning demographic, economic and social data about the Village, as well as its fiscal capacity. This data should assist the reader in understanding the Village's overall financial condition.

Total net position	\$ 23,876	\$ 23,786	\$ 54,265	\$ 53,008	\$ 78,141	\$ 76,794

Statement of Net Position (in thousands)

The Village's combined net position increased by \$1,347 or 1.8% from 2015, to \$78,141. Governmental Activities net position increased by \$90 and business-type activities increased by \$1,257. Government-wide net position increased due to revenue growth combined with continued efforts at cost containment. Business-type net position increased due to continued investment in infrastructure.

The Village continues to aggressively invest in infrastructure. The largest portion of the Village's net position reflects its investment in capital assets (infrastructure, buildings, machinery, equipment and land), less any related debt used to acquire those assets that is still outstanding. This total for 2016 is \$119,043. The Unrestricted portion of net position includes, Police, Fire and IMRF pension liability.

Revenues:

For the year ended December 31, 2016, Governmental Activities Revenues totaled \$60,481, increasing about 1.9% or \$1,146. All revenue categories increased over 2015 levels with the exception of Other Taxes which decreased by \$733 and Sales Tax, which decreased by \$268.

The Village benefits from a highly diversified revenue base. Revenues from sales taxes amounted to \$20,543. The sales tax consists of a 1% state portion and 1% local home rule tax. Sales tax revenues were steady across most categories, with the exception of food and automobiles which experienced decreases. Revenues from Property Taxes totaled \$16,733. Property taxes support governmental activities, including the Village's contribution to the Police Pension Fund and the Firefighters' Pension Fund. The levy for operations was flat, and the Police and Fire Pension Levy increased by \$915 due to lower than expected return on plan assets. The remainder of the increase was due primarily to increases in TIF increment in the Downtown TIF (\$103) and Ogden Avenue TIF (\$45). Major items included in the category Other Taxes which decreased \$733 are state income tax, utility taxes and use tax. State Income Taxes decreased \$443 in 2016 and Telecommunications taxes decreased \$343. Charges for Service increased \$244 due primarily to increased fees from permits and inspections. The increase in Capital Grants/contributions of \$269 is due primarily to developer contributions for

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

infrastructure. The increase in Other Revenues (\$520) is due to the gain on sale of land (\$456) with the remaining increase from higher interest income due to higher interest rates.

For the year ended December 31, 2016, Business-Type Activities revenues totaled \$21,101 decreasing by \$1,013 from 2015. Revenues in this category include charges for providing water and stormwater operations to the residents of the village and charges for parking. Fees for these services increased by \$225 or 1%. There were no rate increases in 2016. Capital grants decreased by \$1,261. In 2015, the Village received a Metra grant of \$903 for parking lot reconstruction, and \$589 from FEMA for Hazard Mitigation. In 2016, the Village received a Community Development Block Grant for Stormwater for \$232.

Expenses:

For the year ended December 31, 2016, Governmental Activities expenses totaled \$60,391 increasing by \$3,181 or 5.6%. Increases include:

- Public Works (\$2,087)
- Public safety (\$515)
- General Government (\$310)
- Community Services (\$167)
- Community Development (\$153)

These increases were partially offset by a decrease in:

- Interest and Fiscal Charges (\$51)

Public Works expenses increased in 2016 due primarily to additional purchases in the Equipment Replacement Fund due to the deferral of 2015 purchases to reduce costs in response to the state's budget crisis, and an increase in worker's compensation costs and pension costs.

Expenses for the Village's business-type activities for the year ended 2016 are \$19,844 for an increase of \$1,427 or 7.7%. The majority of this increase was due to higher expenses in the Stormwater Fund due to increased maintenance activities for the Village's stormwater system. Also, \$340 was due to a loss taken in the Parking Fund for the sale of land.

Major Governmental Funds (in thousands)

The General Fund is the Village's primary operating fund and is the largest source of day-to-day operations. Fund Balance in the General Fund increased by \$181 to \$18,881. General Fund revenues were slightly higher than 2015 levels, and expenses were controlled due to continued cost reduction efforts.

The Downtown Redevelopment Tax Increment District fund (TIF) has a fund balance of \$1,207 compared to December 31, 2015 of \$1,060 for an increase of \$147. This fund is

VILLAGE OF DOWNERS GROVE, ILLINOIS
Management's Discussion and Analysis
For the Year Ended December 31, 2016

used to pay Downtown TIF debt and for costs in the downtown area, offset by property tax increment.

The Capital Improvements fund accounts for the resources provided for improvements to the Village's infrastructure. The fund balance of \$4,108 is up slightly from 2015 fund balance of \$4,077. The Village continues its commitment to invest in infrastructure.

General Fund Budgetary Highlights (in thousands)

The General Fund was budgeted to break even in 2016, with revenues and expenses at \$46.3 million. Revenues in the general fund were \$549 under budget. The majority of the decrease is due to unfavorable budget variances in: income taxes (\$343), state sales taxes (\$381) and telecommunications tax (\$308). These unfavorable variances were partially offset by higher than expected revenues in charges for services (\$388).

Expenditures in the general fund were \$624 under the budget. This was due in a large part to cost reduction efforts.

Capital Asset and Debt Administration (in thousands)

Capital Assets

The Village has investment in capital assets for its governmental and business-type activities as of December 31, 2016 of \$195,136 (net of accumulated depreciation). This investment in capital assets includes infrastructure, buildings, land, improvements other than buildings, intangible assets, capital equipment, and construction in progress. For more detailed information, see Notes to the Financial Statements #4.

Major capital asset activity during the current period included:

- Roadway maintenance
- Watershed improvements
- Water main replacements

Long Term Debt (in thousands)

At December 31, 2016, the Village had total bonded debt of \$74,570. Of this total, \$20,195 is debt to be repaid from the proceeds of downtown tax increment redevelopment district. These redevelopment districts generate higher taxes as they develop, and those taxes are used for debt service. In the event that the incremental taxes are insufficient, the government has pledged its ad valorem property tax authority as a guarantee. The remaining debt was issued to fund infrastructure projects. These debt issuances all have dedicated revenue sources. Additional information regarding debt can be found in Note 6 on page 3-35.

The Village holds an underlying bond rating of AAA from Standard & Poor's. Individual bond ratings are disclosed on the face of the final official statements for the bonds. State Statutes do not limit the amount of general obligation debt a home-rule municipality may issue.

Economic Factors and Next Year's Budgets and Rates

The Village has been preparing General Fund budgets per the recommendations of the Long Range Plan (LRP). Significant changes to the Village's budget and operations were made to address a substantial structural financial gap in the General Fund as a result of the recession. Guided by the LRP, the Village has responded by reducing expenditures and increasing revenues to ensure that essential Village services continue to be delivered without interruption. Moving forward, the outlook is for moderate growth in revenues. The Village will continue to follow the LRP to operate an organization that is as efficient and lean as possible.

Requests for Information

This financial report is designed to provide a general overview of the Village's finances for all those with an interest in the Village's operations. Questions concerning any of the information provided in this report or any requests for additional financial information should be addressed to Judy Buttny, Finance Director/Treasurer, 801 Burlington Ave, Downers Grove, Illinois 60515.

SECTION 3

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by GASB. The sets of statements include:

- Government-wide Financial Statements
- Fund Financial Statements:
 - > Governmental Funds
 - > Proprietary Funds
 - > Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

VILLAGE OF DOWNERS GROVE, ILLINOIS
 Reconciliation of Fund Balances of Governmental Funds to the
 Governmental Activities in the Statement of Net Position
 December 31, 2016

FUND BALANCES OF GOVERNMENTAL FUNDS	\$33,170,522
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds	126,480,540
Less internal service funds	(6,108,362)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds	(45,675,000)
Compensated absences payable are not due and payable in the current period, and, therefore, are not reported in the governmental funds	(3,732,734)
Less internal service funds	95,630
The net OPEB payable is not due and payable in the current period, and, therefore, is not reported in the governmental funds	(7,103,825)
Less internal service funds	196,031
Unamortized premium is reported as a liability on the statement of net position	(1,141,465)
The unamortized accounting loss is reported as a deferred outflow in the statement of net position	732,806
Accrued interest on long-term liabilities is reported as a liability on the statement of net position	(799,786)
Deferred outflows of resources related to pensions do not relate to current financial resources and are not reported in the Governmental Funds Balance Sheet	
Police	2,673,246
Fire	2,399,713
IMRF	5,408,939
Deferred inflows of resources related to pensions do not relate to current financial resources and are not reported in the Governmental Funds Balance Sheet	
Police	(2,568,550)
Fire	(410,135)
IMRF	(750,013)
Long term liabilities applicable to the Village's governmental activities are not due and payable in the current period and, according, are not reported as fund liabilities. All liabilities - both current and long term are reported in the Statement of Net Position.	
Net IMRF Pension liability	(7,090,098)
Net Police Pension liability	(41,389,771)
Net Fire Pension liability	(38,842,319)
The net position of the internal service funds are included in the governmental activities in the statement of net position	8,430,385
Less the net position attributable to Business type activities	(100,248)
NET POSITION OF GOVERNMENTAL ACTIVITIES	\$23,875,506

VILLAGE OF DOWNERS GROVE, ILLINOIS
 Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances
 to the Governmental Activities in the Statement of Activities
 For the Year Ended December 31, 2016

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 1,075,771
Amounts reported for governmental activities in the statement of net position are different because:	
Governmental funds report capital outlays as expenditures, however, they are capitalized and depreciated in the statement of activities	3,267,814
Less internal service funds	(2,192,704)
Some expenses in the statement of activities (e.g., depreciation) do not require the use of current financial resources and, therefore, are not reported as expenditure in the governmental funds.	(4,596,749)
Less internal service funds	898,669
The repayment of the principal portion of long-term debt is reported as an expenditure when paid, along with refundings as an other financing use, but they are reductions of principal outstanding in the statement of net position	3,740,000
The change in accrued interest payable on long-term debt is reported as an expense on the statement of activities	55,387
The change in the compensated absences liability is reported as an expense on the statement of activities	203,461
Add internal service funds	(6,284)
In the Statement of Activities, operating expenses are measured by the amounts incurred during the year. However, certain of these items are included in the governmental funds only to the extent they require the expenditure of current financial resources.	
Pension expense :Police	(753,179)
Pension expense : Fire	(1,137,946)
Pension expense : IMRF	(1,731,991)
The accounting loss is reported as an expense in the statement of activities	(120,932)
The amortization of the premium on long-term debt is reported as a reduction of expense on the statement of activities	180,810
The increase in OPEB payable is reported as a increase in expense on the statement of activities	(159,413)
Less internal service funds	24,711
The change in net position of certain activities of internal service funds is reported in governmental funds	1,453,455
Less the change in net position attributable to Business type activities	(111,135)
CHANGES IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 89,745

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Downers Grove, Illinois (Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the Village's accounting policies are described below.

A. Reporting Entity

The Village is a municipal corporation governed by an elected board. As required by GAAP, these financial statements present the Village (the primary government). In evaluating how to define the reporting entity, management has considered all potential component units. Component units are legally separate organizations for which the Village is financially accountable or other organizations for which the nature and significance of their relationship with the Village are such that their exclusion would cause the reporting entity's financial statements to be misleading.

The Village's financial statements include two pension trust funds:

Police Pension Employees Retirement System

The Village's police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Mayor, one pension beneficiary elected by the membership, and two police employees elected by the membership constitute the pension board. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, the PPERS is reported as if it were a part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. The PPERS is reported as a pension trust fund, because of the Village's fiduciary duties, and the data for this component unit is included in the government's fiduciary fund financial statements.

Firefighters' Pension Employees Retirement System

The Village's sworn firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). The FPERS functions for the benefit of those employees and is governed by a five member pension board. Two members appointed by the Mayor, one pension beneficiary elected by the membership, and two fire employees elected by the membership constitute the pension board. The Village and FPERS

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

participants are obligated to fund all FERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. The FERS is reported as a pension trust fund because of the Village's fiduciary duties, and the data for this component unit is included in the government's fiduciary fund financial statements.

Discretely Presented Component Unit - Downers Grove Public Library

The component unit in the basic financial statements includes the financial data of the Village's component unit. It is reported in a separate column to emphasize that it is legally separate from the Village.

The Downers Grove Public Library (the Library) operates and maintains the public library within the Village. The Library's Board is appointed by Village Council and its annual budget and property tax levy requests are subject to the Village Council's approval.

The Library does not issue separate financial statements but more information can be obtained from the Library's offices at 1050 Curtiss, Downers Grove, Illinois, 60515.

B. Fund Accounting

The Village uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to determine legal compliance and to aid financial management by segregating transactions related to certain governments' functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental, proprietary, and fiduciary.

Governmental funds are used to account for substantially all of the Village's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general capital assets (capital projects funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government, not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. The Village utilizes pension trust funds and agency funds which are generally used to

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

account for assets that the Village holds in fiduciary capacity or on behalf of others as their agent.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Village. The effect of interfund activity has been removed from these statements; however interfund services provided and used are not eliminated on these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Non-major funds are reported in the supplementary information.

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Downtown Redevelopment Tax Increment Financing District Fund* accounts for all activities related to the redevelopment of downtown Downers Grove. The revenue in this fund is from the collection of the TIF property tax increment created from the increase in the value of property within the district.

The *Capital Improvements Fund* accounts for capital projects being completed in the Village.

The Village reports the following major proprietary funds:

The *Waterworks Fund* accounts for the provision of potable water services to the residents of the Village. All activities necessary to provide such services are

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

accounted for in this fund including but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

The *Parking Fund* accounts for the fee-based parking throughout the Village. All activities including lot maintenance, parking permits administration, parking enforcement, and collections are included in this fund.

The *Stormwater Utility Fund* accounts for projects recommended to address drainage and stormwater issues within the public system. All activities necessary to provide such services are accounted for in this fund including but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

Additionally, the Village reports the following funds:

Internal Service Funds account for equipment replacement, risk management, health insurance, and fleet management services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

Pension Trust Funds account for the activities of the accumulation of resources to pay pension costs. Resources are contributed by members at rates fixed by state statutes and by the government through an annual property tax levy.

Agency Funds account for the activities of the Village but are unavailable for the use of the Village due to the Village being a pass through or holder of funds (i.e., construction deposit fund).

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund statements except for agency funds which do not have a measurement focus. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expense are directly attributable to the operation of the proprietary funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for sales

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

taxes and telecommunication taxes which use a 90 day period. Expenditures, generally, are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded when payment is due.

Sales taxes, licenses, interest revenue, and charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Income taxes and fines collected and held by the state or county at year end on behalf of the Village also are recognized as revenue. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash. All other revenue items are considered to be measurable and available only when cash is received by the Village. The Village recognizes property taxes when they become both measurable and available in the year intended to finance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the Village's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Village reports unearned revenue and unavailable revenue on its financial statements. Unearned and unavailable revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenue and unavailable revenues also arise when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability for unearned or unavailable revenue is removed from the financial statements and revenue is recognized.

E. Cash and Cash Equivalents and Investments

For purposes of the statement of cash flows, the Village's enterprise and internal service funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Since the Village pools its cash and investments, all investments are considered cash equivalents.

Investments consist of certificates of deposit, treasury obligations, mutual funds, and insurance contracts with maturities greater than three months. Investments are reported at fair value except that non-negotiable certificates of deposit are stated at cost or amortized cost.

F. Receivables

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

The recognition of receivables associated with non-exchange transactions are as follows:

- Derived tax receivables (such as: sales taxes) are recognized when the underlying exchange has occurred.
- Imposed non-exchange receivables (such as: property taxes and fines) are recognized when an enforceable legal claim has arisen.
- Government mandates or voluntary non-exchange transaction receivables (such as: mandates or grants, income and motor fuel taxes) are recognized when all eligibility requirements have been met.

G. Inventory

Inventory is valued at the lower of cost (first-in, first-out) or market. Inventory amounts are recorded on the basis of a physical count at the fiscal year end. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

H. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial, individual cost of \$25,000 or more for all capital assets. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Description	Years
Infrastructure	20 - 50
Buildings	50 - 65
Improvements other than buildings	50 - 65
Capital equipment	5 - 15
Intangible Assets	5 - 10

J. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from an advance refunding of debt. The difference between the cost of the securities placed in trust for future payment of refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund.

K. Compensated Absences

It is the Village's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. If the bargaining employee started before May 1, 1995, the Village will pay accumulated sick time when employment has ceased. If the employee started after May 1, 1995, there is no liability for unpaid accumulated sick leave. If the non-bargaining employee started before December 1, 1993, the Village will pay accumulated sick time when employment has ceased. If the employee started after December 1, 1993, there is no liability for unpaid accumulated sick leave. All pay due in the event of termination is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have been incurred, for example, as a result of employee resignations and retirements near the end of the fiscal year and the payout is actually due to them but has not yet been paid.

L. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

M. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow resource (revenue) until that future time.

N. Fund Balances/Net Position

Governmental fund equity is classified as fund balance and displayed as follows:

a. **Nonspendable** – Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.

b. **Restricted** – Consists of fund balances constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities or from enabling legislation adopted by the Village.

c. **Committed** – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the Village through formal action of the Mayor and Village Council. Fund balance amounts are committed through an ordinance of the village. This ordinance must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require another ordinance by the Village.

d. **Assigned** – Represents amounts constrained by the Village's intent to use them for a specific purpose. The Village Council authorizes management to assign fund balance.

e. **Unassigned** – Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. None of the Village's net position is restricted as a result of enabling legislation adopted by the Village. Net investment in

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

capital assets represents the book value of capital assets less any long-term debt outstanding issued to acquire or construct the capital assets.

Proprietary fund equity is classified the same as in the government-wide statements.

O. Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund services and reimbursements, are reported as transfers.

P. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust funds. In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

A. Village Deposits and Investments

The Village's investment policy authorizes the Village to invest in all investments allowed by Illinois Compiled Statutes except for repurchase agreements. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, legality, safety, liquidity, and yield.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Village's deposits may not be returned to it. On January 1, 2013, the temporary unlimited coverage for noninterest bearing transaction accounts expired. Therefore, demand deposit accounts (interest-bearing and noninterest-bearing) are insured for a total of \$250,000 beginning January 1, 2013. In addition, if deposits are held in an institution outside of Illinois, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by the Village, an independent third-party or the Federal Reserve Bank in the Village's name. The Village's management believes it is in compliance with this policy.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which investments could be sold.

Investments

The following table presents the investments and maturities of the Village's debt securities as of December 31, 2016:

Investment Type	Investment Maturities (in Years)			
	Fair Value	Less than 1	1-5	6-10
Municipal Bonds	\$8,044,128	\$2,632,235	\$5,411,893	\$ -
Federal Home Loan Bank Note	\$4,718,856	-	4,218,431	500,425
Federal Farm Credit Bank Note	\$1,684,655	-	1,684,655	-
Negotiable CDs	\$17,940,646	7,216,246	10,724,400	-
Total	\$32,388,285	\$9,848,481	\$22,039,379	\$ 500,425

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter-term securities.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Investment Type	Investment ratings			
	Fair Value	AAA	AA	Not Rated
Municipal Bonds	\$8,044,128	\$2,134,148	\$5,909,980	\$ -
Federal Home Loan Bank Note	4,718,856	-	4,718,856	-
Federal Farm Credit Bank Note	1,684,655	-	1,684,655	-
Negotiable CDs	17,940,646	-	-	17,940,646
Illinois Funds	1,718,775	1,718,775	-	-
Total	\$34,107,060	\$3,852,923	\$12,313,491	\$17,940,646

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Village limits its exposure to credit risk limiting investments to the safest types of securities; pre-qualifying the financial institutions, intermediaries, and advisors with which the Village will conduct business; and diversifying the investment portfolio so that potential losses on individual investments will be minimized.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by an independent third-party custodian in the Village's name and evidenced by safekeeping receipts and a written custodial agreement. Illinois Funds are not subject to custodial credit risk. The Village's management believes it is in compliance with this policy.

Concentration of credit risk is the risk that the Village has a high percentage of its investments invested in one type of investment. The Village's investment policy requires diversification of investments to avoid unreasonable risk by limiting investments to avoid over concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities); no financial institution shall hold more than 40% of the Village's investment portfolio, exclusive of U.S. Treasury securities in safekeeping; monies deposited at a financial institution shall not exceed 75% of the capital stock and surplus of that institution; commercial paper shall not exceed 10% of the Village's investment portfolio, except bond issue proceed investments; and deposits in any one public investment pool shall not exceed 50% of the Village's investment portfolio. The Village has \$4,718,856 invested in Federal Home Loan Bank Notes and \$1,684,655 invested in Federal Farm Credit Banks which is over 5% of the Village's investment portfolio.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statement of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2016:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Investments Measured at Fair Value					
Investment Type	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
Municipal Bonds	\$ -	\$ 8,044,128	\$ -		
U.S. Agencies	6,403,511	-	-		
Negotiable CDs	17,940,646	-	-		
Total securities	\$ 24,344,157	\$ 8,044,128	\$ -		

Level 1 includes quoted prices in active markets for an identical asset or liability that a government can access at the measurement date.

Level 2 includes inputs other than quoted prices included with Level 1, that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 includes unobservable inputs for an asset or liability.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

B. Police Pension Fund Deposits and Investments

The Police Pension Fund's investment policy authorizes the Police Pension Fund to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, real estate, interest bearing obligations of the U.S. Treasury and U.S. Agencies, interest bearing bonds of the State of Illinois or any county, township, or municipal corporation of the State of Illinois, direct obligations of the State of Israel, money market mutual funds whose investments consist of obligations of the U.S. Treasury or U.S. Agencies, separate accounts managed by life insurance companies, Mutual Funds, common and preferred stock, and Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

The police pension fund's investment policy allows investments in all of the above listed accounts, but does exclude any repurchase agreements. The police pension fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Asset Class	Target	Expected Rate of Return Assumption	Real rate of Return Assumption
Fixed Income	42.50%	4.30%	2.00%
Domestic Equities	35.00%	7.90%	5.60%
International Equities	10.00%	8.20%	5.90%
Real Estate	12.50%	7.10%	4.80%
Cash and Cash Equivalents	0.00%	1.90%	-0.40%

Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund. The blended asset class is comprised of all other asset classes to allow for rebalancing the portfolio.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in December 2016 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2016 are listed in the table above.

For the year ended December 31, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.02 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

It is the policy of the Police Pension Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the cash flow demands of the Police Pension Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are safety of principal, liquidity, and rate of return.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Police Pension Fund's deposits may not be returned to it. The

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Police Pension Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by an independent third-party or the Federal Reserve Bank, and evidenced by safekeeping receipts. The Village's management believes it is in compliance with this policy.

Investments

The following table presents the investments and maturities of the Police Pension Fund's debt securities as of December 31, 2016:

Investment Type	Investment Maturities (in Years)				
	Fair Value	Less than 1	1-5	6-10	Greater than 10
Corporate Bonds	\$ 11,712,258	\$ 174,860	\$10,284,179	\$1,253,219	\$ -
Foreign Bonds	362,198	-	362,198	-	-
U.S. Obligations	6,441,196	-	-	6,441,196	-
U.S. Agency Obligations	410,025	608	75	20,912	388,430
TOTAL	\$18,925,677	\$175,468	\$10,646,452	\$7,715,327	\$388,430

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Police Pension Fund's investment policy does not address this issue. The Police Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market.

Investment Type	Fair Value	Investment ratings				
		AAA	AA	A	BBB	Not Rated
Corporate Bonds	\$11,712,258	\$ -	\$1,054,246	\$6,729,352	\$3,928,660	\$ -
Foreign Bonds	362,198	-	-	362,198	-	-
U.S. Obligations	6,441,196	6,441,196	-	-	-	-
U.S. Agency Obligations	410,025	410,025	-	-	-	-
Principal U.S. Property Separate Acct	5,904,445	-	-	-	-	5,904,445
TOTAL	\$24,830,122	\$6,851,221	\$1,054,246	\$7,091,550	\$3,928,660	\$5,904,445

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Police Pension Fund limits its exposure to credit risk by primarily investing U.S. Government Securities which are rated AAA, and other obligations which are rated BBB or better by a national rating agency.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Police Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Police Pension Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by a third-party custodian

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

and evidenced by safekeeping receipts. Illinois Funds are not subject to custodial credit risk. The Village's management believes it is in compliance with this policy.

Concentration of credit risk is the risk that the Police Pension Fund has a high percentage of its investments invested in one type of investment. The Police Pension Fund's investment policy requires diversification of investment to avoid unreasonable risk. Target percentages are fixed income 42.5%; large cap domestic equities 25%; small cap domestic equities 10%; and international equities 10%. In the Police Pension, more than 5 percent of the plan's net position is invested in a mutual fund/insurance contract purchased through Principal Financial Group. The Police Pension holds \$5,904,445 in a real estate investment purchased through Principal Financial Group, representing 11.8% of the plan's net position.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statement of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2016:

Investment Type	Investments Measured at Fair Value		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt securities:			
U.S. Obligations	\$ 6,441,196	\$ -	\$ -
U.S. Agencies	410,025	-	-
Corporate Bonds	-	11,712,258	-
Foreign Bonds	-	362,198	-
Total debt securities	\$ 6,851,221	\$ 12,074,456	\$ -
Equity securities:			
Common stocks	\$3,909,179	\$ -	\$ -
Foreign stocks	205,804	-	-
Mutual Funds-Equity	17,866,722	-	-
Mutual Funds-Fixed income	998,102	-	-
Total equity securities	\$22,979,807	\$ -	\$ -

Level 1 includes quoted prices in active markets for an identical asset or liability that a government can access at the measurement date.

Level 2 includes inputs other than quoted prices included with Level 1, that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Level 3 includes unobservable inputs for an asset or liability.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

C. Firefighters' Pension Fund Deposits and Investments

The Firefighters' Pension Fund's investment policy authorizes the Firefighters' Pension Fund to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, real estate, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds (created the Illinois state legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value). The firefighters' pension fund allows funds to be invested in any type of security authorized by the Illinois Pension Code. The firefighters' pension fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Asset Class	Target	Expected Rate of Return Assumption	Real Rate of Return Assumption
Fixed Income	35.00%	4.30%	2.00%
Domestic Equities	39.00%	7.90%	5.60%
International Equities	15.00%	8.20%	5.90%
Real Estate	10.00%	7.70%	5.40%
Cash and Cash Equivalents	1.00%	1.90%	-0.40%

Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund. The blended asset class is comprised of all other asset classes to allow for rebalancing the portfolio.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in December 2016 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2016 are listed in the table above.

For the year ended December 31, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.73% percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

It is the policy of the Firefighters' Pension Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Firefighters' Pension Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are safety of principal, liquidity, and return on investment.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Firefighters' Pension Fund's deposits may not be returned to it. The Firefighters' Pension Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by an independent third-party or the Federal Reserve Bank, and evidenced by safekeeping receipts. The Village's management believes it is in compliance with this policy.

Investments

The following table presents the investments and maturities of the Firefighters' Pension Fund's debt securities as of December 31, 2016:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
Corporate Bonds	\$ 7,644,692	\$ 563,942	\$3,244,606	\$3,778,528	\$ 57,616
Foreign Bonds	508,660	-	352,160	156,500	-
U.S. Obligations	6,108,706	1,970,193	2,411,117	1,727,396	-
U.S. Agency Obligations	214,897	156	208,141	5,014	1,586
Negotiable CDs	1,683,995	-	1,683,995	-	-
TOTAL	\$16,160,950	\$2,534,291	\$7,900,019	\$5,667,438	\$59,202

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Firefighters' Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated

U.S. Obligations	6,108,706	6,108,706	-	-	-	-
U.S. Agency Obligations	214,897	214,897	-	-	-	-
Principal US Property Separate Acct	4,745,468	-	-	-	-	4,745,468
Negotiable CDs	1,683,995	-	-	-	-	1,683,995
TOTAL	\$20,906,418	\$6,587,864	\$2,229,771	\$4,445,118	\$1,214,202	\$6,429,463

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Firefighters' Pension Fund limits its exposure to credit risk by primarily investing U.S. Government securities which are rated AAA, and other obligations which are rated BBB or better by a national rating agency.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Firefighters' Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Firefighters' Pension Fund's requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by a third-party custodian and evidenced by safekeeping receipts. Illinois Funds are not subject to custodial credit risk. The Village's management believes it is in compliance with this policy.

Concentration of credit risk is the risk that the Firefighters' Pension Fund has a high percentage of its investments invested in one type of investment. The Firefighters' Pension Fund's investment policy requires diversification of investment to avoid unreasonable risk. Target percentages are fixed income 35%; large cap domestic equities 29%; small cap domestic equities 10%; and international equities 15%. In the Fire Pension, more than 5 percent of the plan's net position is invested in a mutual fund/insurance contract purchased through Principal Financial Group. The Fire Pension holds \$4,745,468 in a real estate investment purchased through Principal Financial Group, representing 9.4% of the plan's net position.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statement of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2016:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Investment Type	Investments Measured at Fair Value		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt securities:			
U.S. Obligations	\$ 6,108,706	\$ -	\$ -
U.S. Agencies	214,897	-	-
Negotiable CD's	-	1,683,995	-
Corporate Bonds	-	7,644,692	-
Foreign Bonds	-	508,660	-
Total debt securities	\$ 6,323,603	\$9,837,347	\$ -
Equity securities:			
Mutual Funds-Equity	\$26,774,904	\$ -	\$ -
Total equity securities	\$26,774,904	\$ -	\$ -

Level 1 includes quoted prices in active markets for an identical asset or liability that a government can access at the measurement date.

Level 2 includes inputs other than quoted prices included with Level 1, that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 includes unobservable inputs for an asset or liability.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

3. RECEIVABLES

A. Property Taxes

Property taxes for 2016 attach as an enforceable lien on January 1 of the year of the levy on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are payable in two installments, on or about June 1 and September 1. Tax Increment Financing (TIF) property taxes receipts are received in two installments similar to levied taxes described above. TIF

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

property taxes are not levied, but are paid by the County from incremental property tax receipts of all taxing bodies within a TIF District. The County collects such taxes and remits them periodically. Management has determined that an allowance for uncollectible accounts is not necessary. As the 2016 tax levy is intended to fund expenditures for the 2017 fiscal year, these taxes are deferred as of December 31, 2016.

B. Other Receivables

The following receivables are included in other receivables on the Statement of Net Position.

	GOVERNMENTAL ACTIVITIES	BUSINESS TYPE ACTIVITIES
OTHER TAXES RECEIVABLE		
Telecommunications tax	\$ 737,291	\$ -

\$7,585,000 General Obligation Refunding Bonds, Series 2016-Refunding portion of Series 2008A, dated March 30, 2016, due in installments of \$115,000 to \$1,045,000 beginning January 1, 2017 plus interest ranging from 2.00% to 4.00% due January 1, 2038

- 7,585,000 - 7,585,000 115,000

TOTAL BUSINESS-TYPE ACTIVITIES

\$29,950,000 \$7,585,000 \$8,640,000 \$28,895,000 \$1,175,000

TOTAL GOVERNMENTAL AND BUSINESS-TYPE ACTIVITIES

\$79,365,000 \$7,585,000 \$12,380,000 \$74,570,000 \$ 5,495,000

On March 30, 2016, the Village issued \$7,585,000 in General Obligation Refunding Bonds, Series 2016 with interest rates ranging from 2.00% to 4.00% to advance refund \$7,530,000 of outstanding bonds, Series 2008A with interest rates ranging from 3.75% to 5.50%. The net proceeds of \$8,153,861 (after payment of \$96,196 in underwriting fees, insurance and other issuance costs) were used to prepay the outstanding debt service requirements of the old bonds. The cash flow requirements on the refunded bonds prior to the advance refunding was \$13,016,250. The cash flow requirements on the 2016 Series refunding bonds are \$11,702,132 from January 1, 2017 through January 1, 2038. The current refunding resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,011,458.

The Village defeased \$6,790,000 of the General Obligation Series 2008A debt by Refunding Debt in years 2014 and 2015. The new debt was issued and the proceeds have been used to purchase U.S. government securities that were placed in escrow accounts. The investments and fixed earnings for the investment are sufficient to fully service the defeased debt until the debt matures. For financial reporting purposes, the debt has been considered defeased; therefore, the above listed debt was removed from the Village's financial statements. The outstanding balance as of December 31, 2016 for the Series 2008A bonds was \$7,205,764.

C. Debt Service Requirements and Maturities

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending December 31	Governmental Activities		Business-Type Activities	
	General Obligation Bonds		General Obligation Bonds	
	Principal	Interest	Principal	Interest
2017	4,320,000	1,531,920	1,175,000	949,575
2018	4,700,000	1,397,107	1,090,000	914,575
2019	5,100,000	1,249,457	1,160,000	881,275
2020	5,575,000	1,064,155	1,190,000	848,450
2021	6,200,000	822,343	1,225,000	814,550
2022	1,240,000	666,743	1,265,000	777,050
2023	1,280,000	628,943	1,305,000	737,175

D. Legal Debt Margin

The Village is a home rule municipality.

Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt margin.

“The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property... (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: ... indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum... shall not be included in the foregoing percentage amounts.”

To date, the General Assembly has set no limits for home rule municipalities.

The Village qualifies as a Home Rule Unit under Section 6(a) of Article VII of the 1970 Constitution of Illinois and, under the powers granted by this Section, can exercise any power and perform any function pertaining to its village and affairs which is not prohibited by the Illinois State Statutes.

E. Industrial, Commercial and Housing Revenue Bonds and Notes

The issuance of industrial, commercial and housing development revenue bonds by the Village is to finance in whole or in part the cost of the acquisition, purchase, construction, reconstruction, improvement, equipping, betterment, or extension of any economic

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

development project in order to encourage economic development within or near the Village.

The bonds are not a debt of the Village. The entity using the bond proceeds to finance a construction or improvement project is liable for the bonds. Since the Village does not act as an agent for the bonds, the transactions relating to the bonds and property do not appear in the Village's financial statements.

As of December 31, 2016, outstanding industrial, commercial and housing revenue bonds and notes approximated \$25,400,365.

7. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. The Village is self-insured for all risks and has established a risk financing fund, Risk Management Fund and a Health Insurance Fund (the Funds), for all risks. They are accounted for as internal service funds where assets are set aside for claim settlements. Under this program, the Funds provides coverage up to a maximum of \$1,000,000 for each general liability claim, \$650,000 for each public safety workers' compensation claim, \$600,000 each for all other workers' compensation claims, \$10,000 for each property damage claim, and \$150,000 for each health claim. The Village purchases commercial insurance for claims in excess of the coverage provided by the Funds up to \$35,000,000. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the Village participate in and make payments to the Funds based upon actuarial estimates of the amounts needed to pay prior and current-year claims. Liabilities of the Funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and societal factors. Non-incremental costs are not allocated to the claims liabilities. Changes in the balances of aggregate claims liabilities during the past two fiscal years are as follows:

	Fiscal Year Ended December 31, 2015	Fiscal Year Ended December 31, 2016
CLAIMS PAYABLE, BEGINNING	\$ 3,355,825	\$ 2,976,280
Incurred claims (including IBNR)	5,944,577	5,594,443
Less claims paid	(6,324,122)	(5,967,969)
CLAIMS PAYABLE, ENDING	\$ 2,976,280	\$ 2,602,754

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

8. COMMITMENTS

A. DuPage Water Commission (DWC)

The Village has committed to purchase water from the DuPage Water Commission. The Village is required to purchase 6.479 million gallons daily, which is 194.37 million monthly. The Village expects to pay the following minimum amounts:

<u>Fiscal Year Ending December 31</u>	<u>Amount</u>
2017	267,473
2018	267,473
2019	267,473
2020	267,473
2021	267,473
2022-2024	802,419

These amounts have been calculated using the Village's current allocation percentage of 7.38%. In future years, this allocation percentage will be subject to change.

B. Sales Tax rebates

The Village has 8 sales tax rebate agreements with local businesses to develop and expand their business in the Village. According to 65 ILCS 5/8-11-20 the Village may enter into an economic incentive agreement relating to the development or redevelopment of land within the corporate limits of the municipality. The agreement is made to rebate any portion of retailer's occupational taxes received by the Village that were generated by the development or redevelopment over a finite period of time. Each sales tax rebate agreement was negotiated on an individual basis and approved by Council Resolution. The tax rebates are payable to the vendors tri-annually based on information received by the Village from the State of Illinois Department of Revenue.

All of the Village's liability as of December 31, 2016 amounted to \$619,630 and has been reported in the Tax Rebate Fund. The Village has elected to disclose all such agreements below.

The Village has a sales tax rebate agreement dated June 5, 2001 with a local retailer to rebate sales taxes on annual sales generated from \$10,000,000 to \$20,000,000. Fifty percent of sales tax on sales generated by the vendor in excess of \$20,000,000 will be rebated to the vendor, subject to a project cap of \$8,000,000 in rebated sales tax. In consideration of the agreement, the retailer will continue to operate its business in the Village for a period of not less than nine years from the date of the agreement. Total sales tax rebates for 2016 amounted to \$161,377. As of December 31, 2016, the Village has zero liability with this vendor.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

The Village has a sales tax rebate agreement dated March 1, 2005 with a local auto dealership to rebate sales taxes on annual sales generated in excess of a base amount of \$27,000,000. In consideration of the agreement, the vendor will continue to operate an auto dealership in the Village for a period of not less than seven years commencing October 31, 2007. Total sales tax rebates for 2016 amounted to \$152,622. As of December 31, 2016, sales tax rebates of \$83,685 were not yet remitted to the vendor.

The Village has a sales tax rebate agreement dated September 1, 2009 with a local auto dealership to rebate sales taxes on annual sales beginning in 2010. In consideration of the agreement, the vendor will continue to operate an auto dealership in the Village for a period of not less than ten years. Total sales tax rebates for 2016 amounted to \$283,420. As of December 31, 2016, sales tax rebates of \$65,486 were not yet remitted to the vendor.

The Village has a sales and utility tax rebate agreement dated December 2, 2008 with a corporation to relocate to the Village. In consideration of the agreement, the corporate headquarters will continue to reside in the Village for a period of not less than fifteen years. Total sales tax rebates for 2016 amounted to \$18,627. As of December 31, 2016, sales tax rebates of \$11,732 were not yet remitted to the vendor.

The Village has a sales tax rebate agreement dated January 1, 2011 with a local auto dealership to rebate sales taxes on annual sales beginning in 2011. In consideration of the agreement, the vendor will continue to operate an auto dealership in the Village for a period of not less than ten years. Total sales tax rebates for 2016 amounted to \$138,765. As of December 31, 2016, sales tax rebates of \$172,556 were not yet remitted to the vendor.

The Village has a sales tax rebate agreement dated December 1, 2011 with a local auto dealership to rebate sales taxes on annual sales beginning in 2012. In consideration of the agreement, the vendor will continue to operate an auto dealership in the Village for a period of not less than ten years. Total sales tax rebates for 2016 amounted to \$78,354. As of December 31, 2016, sales tax rebates of \$82,411 were not yet remitted to the retailer.

The Village has a sales tax rebate agreement dated November 6, 2012 with a local auto dealership to rebate sales taxes on annual sales beginning in 2013. In consideration of the agreement, the vendor will continue to operate an auto dealership in the Village for a period of not less than fifteen years. Total sales tax rebates for 2016 amounted to \$29,712. As of December 31, 2016, sales tax rebates of \$34,061 were not yet remitted to the retailer.

The Village has a sales tax rebate agreement dated October 29, 2014 with a local retailer to rebate sales taxes on annual sales beginning in 2015. In consideration of the agreement, the retailer will continue to operate its business in the Village for a period of not less than twenty years. Total sales tax rebates for 2016 amounted to \$276,566. As of December 31, 2016, the sales tax rebates of \$169,699 were not yet remitted to the retailer.

9. CONTINGENT LIABILITIES

A. Litigation

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

The Village is a defendant in various lawsuits arising out of the normal course of business. It is rigorously defending these suits, as it believes it has a meritorious defense against the claims. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the village attorney that the resolution of these matters will not have a material adverse effect on the financial condition of the Village. The Village's possible exposure under these lawsuits is approximately \$825,000.

B. DuPage Water Commission (DWC)

The Village's water supply agreement with DWC provides that each customer is liable for its proportionate share of any costs arising from defaults in payment obligations by other customers.

C. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

10. POSTEMPLOYMENT BENEFITS

In addition to providing pension benefits, the Village provides post employment health care and life insurance benefits (OPEB), in accordance with the personnel policy manual, to all employees who meet the eligibility requirements under the applicable retirement system. Currently, 93 retirees and spouses meet those eligibility requirements with 308 active members. The employee pays 100% of the cost of the health and life insurance premiums for the post employment benefits with the exception of health benefits for retirees that have reached 65. Once an employee reached 65 years of age, the Village subsidized 50% of the health insurance premium. For new retirees after September 1, 2009, the retiree pays 100% of the cost of the health and life insurance premiums. All health care benefits are provided through the Village's self-insured health plan. The benefit levels are the same as those afforded to active employees. The Village first had an actuarial valuation as of December 31, 2007. The Village's net OPEB obligation was \$7,602,583 as of December 31, 2016.

In the actuarial valuations, the entry-age normal actuarial cost method was used. The amortization method used was percent of pay. The actuarial assumptions included 4% investment rate of return and an annual healthcare cost trend rate of 4.40%, a reduction from 5% a year ago. Both rates include a 3% inflation assumption. The remaining open amortization period at December 31, 2016 was 30 years. The funded status of the plan was as follows:

The net OPEB obligation was calculated as follows:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Annual Required Contribution	\$ 533,338
Interest on Net OPEB Obligation	297,254
Adjustment to Annual Required Contribution	<u>(247,713)</u>
Annual OPEB Cost	582,879
Contributions Made	<u>(411,639)</u>
Increase in Net OPEB Obligation	171,240
Net OPEB Obligation, Beginning of Year	<u>7,431,343</u>
Net OPEB Obligation, End of Year	<u>\$7,602,583</u>

Fiscal Year Ended December 31	Annual OPEB Cost	Percentage Contributed	Net OPEB Obligation
2016	\$582,879	70.62%	\$7,602,583
2015	763,644	51.30%	7,431,343
2014	549,313	68.10%	7,059,593

Actuarial valuations include estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress for the postemployment defined benefit plan immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits over time. The Village does not issue a separate report for OPEB. The funded status of the plan as of December 31, 2016 was as follows:

Actuarial Accrued Liability (AAL)	\$11,565,434
Actuarial Value of Assets	0
Unfunded Actuarial Accrued Liability (UAAL)	11,565,434
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.0%
Covered Payroll	\$24,972,329
UAAL as a Percentage of Covered Payroll	46.3%

Effective January 1, 2014 the Village implemented a fully insured policy for 65 and older retirees resulting in the decrease in the Actuarial Accrued Liability.

11. EMPLOYEE RETIREMENT SYSTEMS

Plan Descriptions and Provisions

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and, the Firefighters' Pension Plan which is also a single-employer pension plan (collectively the Pension Plans). The benefits, benefit

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

levels, employee contributions, and employer contributions for all three plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. None of the Pension Plans issue separate reports on the Pension Plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the IMRF plan as a whole, but not for individual employers. That report can be obtained at www.IMRF.org.

A. Illinois Municipal Retirement Fund

Plan description. All employees (other than those covered by the Police and Firefighters' Pension plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF has a two tier plan. Members who first participated in IMRF or an Illinois Reciprocal System prior to January 1, 2011 participate in Tier 1. All other members participate in Tier 2. For Tier 1 participants, pension benefits vest after 8 years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate of earnings (average of the highest 48 consecutive months' earnings during the last 10 years) for credited service up to 15 years and 2% for each year thereafter.

For Tier 2 participants, pension benefits vest after 10 years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate of earnings (average of the highest 96 consecutive months' earnings during the last 10 years, capped at \$111,570) for credited service up to 15 years and 2% for each year thereafter. However, an employee's total pension cannot exceed 75% of their final rate of earnings. If an employee retires after 10 years of service between the ages of 62 and 67, and has less than 30 years of service credit, the pension will be reduced by 1/2% for each month that the employee is under the age of 67. If an employee retires after 10 years of service between the ages of 62 and 67, and has between 30 and 35 years of service credit, the pension will be reduced by the lesser of 1/2% for each month that the employee is under the age of 67 or 1/2% for each month of service credit less than 35 years. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by Illinois Compiled Statutes.

Under the employer number within IMRF, both the Village and Library contribute to the plan. As a result, IMRF is considered to be an agent multiple-employer plan through which cost-sharing occurs between the Village and Library.

Plan membership. At December 31, 2015, the measurement date, membership in the plans were as follows:

Retirees and beneficiaries	269
Inactive, non-retired members	197
Active members	207
Total	<u>673</u>

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Contributions. As set by statute, Village and Library employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The statute requires the Village and Library to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's and Library's actuarially determined contribution rate for calendar year 2016 was 12.46% of annual covered payroll. The Village and Library also contribute for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability. The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The total pension liability for IMRF was determined by an actuarial valuation performed as of December 31, 2015 using the following actuarial methods and assumptions:

Actuarial cost method	Entry age normal
Asset valuation method	Market value of assets
Actuarial assumptions	
Investment rate of return	7.48%
Inflation	3.50%
Salary increases	3.75% to 14.50%, Including inflation
Price inflation	2.75%

Mortality. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Projected Returns/Risks	
		One Year Arithmetic	Ten Year Geometric
Equities	38.00%	8.85%	7.39%
International equities	17.00%	9.55%	7.59%
Fixed income	27.00%	3.05%	3.00%
Real estate	8.00%	7.20%	6.00%
Alternatives	4.50%		
Private equity		13.15%	8.15%
Hedge funds		5.55%	5.25%
Commodities		4.40%	2.75%
Cash equivalents	1.00%	2.25%	2.25%

Discount rate. The discount rates used to measure the total pension liability for IMRF was 7.48%. The discount rate calculated using the December 31, 2014 measurement date was 7.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village and Library contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments of 7.50% was blended with the index rate of 3.57% for tax exempt 20-year general obligation municipal bonds with an average AA credit rating at December 31, 2015 to arrive at a discount rate of 7.48% used to determine the total pension liability. The year ending December 31, 2085 is the last year in the 2016 to 2115 projection period for which projected benefit payments are fully funded.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Village and Library calculated using the discount rate of 7.48% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.48%) or 1 percentage point higher (8.48%) than the current rate:

VILLAGE OF DOWNERS GROVE, ILLINOIS

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions. For the year ended December 31, 2016, the Village and Library recognized pension expense of \$4,303,077. The Village and Library reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
<i>Village:</i>		
Difference between expected and actual experience	\$ -	\$ 952,187
Assumption changes	1,142,095	-
Net difference between projected and actual earnings on pension plan investments	4,304,397	-
Contributions subsequent to the measurement date	1,420,482	-
Total	<u>\$6,866,974</u>	<u>\$952,187</u>
<i>Library:</i>		
Difference between expected and actual experience	\$ -	\$ 177,462
Assumption changes	212,855	-
Net difference between projected and actual earnings on pension plan investments	802,222	-
Contributions subsequent to the measurement date	264,739	-

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Total	\$1,279,816	\$177,462
Total:		
Difference between expected and actual experience	\$ -	\$1,129,649
Assumption changes	1,354,950	-
Net difference between projected and actual earnings on pension plan investments	5,106,619	-
Contributions subsequent to the measurement date	1,685,221	-
Total	\$8,146,790	\$1,129,649

The amounts reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability for the year ending December 31, 2017. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$5,331,920) will be recognized in pension expense as follows:

Year Ending December 31,	Village	Library	Total
2017	\$1,383,249	\$257,800	\$1,641,049
2018	1,139,469	212,366	1,351,835

Total	\$4,494,305	\$837,615	\$5,331,920

B. Police Pension Plan

Plan description. Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 – Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 – Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one half the annual unadjusted percentage increase in the CPI, whichever is less.

Plan membership. At December 31, 2016, the Police Pension Plan membership consisted of:

Retirees and beneficiaries	65
Inactive, non-retired members	3
Active members	69
Total	<u>137</u>

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded by the year 2040. The Village's actuarially determined contribution rate for the fiscal year ending December 31, 2016 was 41.31% of annual covered payroll.

Net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an annual actuarial valuation as of that date.

Summary of significant accounting policies. The financial statements of the Police Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The Village's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation performed as of December 31, 2016 using the following actuarial methods and assumptions:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Actuarial cost method	Entry age normal
Asset valuation method	Market value
Actuarial assumptions	
Interest rate	7.25%
Salary increases	4.00%-8.61%
Inflation	3.00%
Cost-of-living adjustments	Tier 1: 3.00% per year, compounded Tier 2: 2.00% per year, simple

Mortality rates are based on rates developed in the L&A 2016 Mortality Table for Illinois Police Officers. The actuarial assumptions used in the December 31, 2016 valuation were based on the results of actuarial experience studies conducted by the Illinois Department of Insurance dated September 26, 2012.

Long-term expected real rate of return. See Note 2 for further information on long-term expected real rates of return.

Discount rate. The discount rate used to measure the total pension liability for the Police Pension Plan was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Police Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability calculated using the discount rates of 7.25% for the Police Pension Plan as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Total pension liability	\$ 104,925,322	91,476,813	\$80,542,101
Plan fiduciary net position	50,087,042	50,087,042	50,087,042
Net pension liability	\$ 54,838,280	\$ 41,389,771	\$30,455,059

Changes in net pension liability. The Village's changes in net pension liability for the year ended December 31, 2016 was as follows:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements

C. Firefighters' Pension Plan

Plan description. Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/4) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Plan as provided for in Illinois Compiled Statutes.

Tier 1 – Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

Plan membership. At December 31, 2016, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries	77
Inactive, non-retired members	5
Active members	<u>75</u>
Total	<u>157</u>

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Contributions. Participants contribute a fixed percentage of their base salary to the plans. At December 31, 2016, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded by the year 2040. The Village's actuarially determined contribution rate for the fiscal year ending December 31, 2016 was 40.7% of annual covered payroll.

Net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an annual actuarial valuation as of that date.

Summary of significant accounting policies. The financial statements of the Firefighters' Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The Village's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation performed as of December 31, 2016 using the following actuarial methods and assumptions:

Actuarial cost method	Entry age normal
Asset valuation method	Market value
Actuarial assumptions	
Interest rate	7.25%
Salary increases	4.00%-9.96%
Inflation	3.00%
Cost-of-living adjustments	Tier 1: 3.00% per year, compounded Tier 2: 2.00% per year, simple

Mortality rates are based on the L&A 2016 study for Illinois Firefighters. The actuarial assumptions used in the December 31, 2016 valuation were based on the results of actuarial experience studies conducted by the Illinois Department of Insurance dated September 26, 2012.

Long-term expected real rate of return. See Note 2 for further information on long-term expected real rates of return.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Discount rate. The discount rate used to measure the total pension liability for the Firefighters' Pension Plan was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Firefighters' Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability calculated using the discount rates of 7.25% for the Firefighters' Pension Plan as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Total pension liability	\$ 100,460,029	\$ 87,572,560	\$77,087,317
Plan fiduciary net position	48,730,241	48,730,241	48,730,241

13. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- **Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans:** GASB 74 addresses the reporting requirements for Other Postemployment Benefit (OPEB) plans that administer benefits on behalf of governments. GASB 74 replaces GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and addresses the financial reporting of OPEB plans that are administered through trusts that meet certain criteria. GASB 74 requires the inclusion of a statement of fiduciary net position and a statement of changes in fiduciary net position in the financial reporting for the plan. GASB 74 also requires more extensive note disclosures and required supplementary information (RSI) related to the measurement of the OPEB liabilities and sets forth note disclosure requirements for defined contribution OPEB plans. GASB 74 is effective for financial statements for fiscal years beginning after June 15, 2016.
- **Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions:** GASB 75 replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. GASB 75 requires governments to report a liability on the face of the financial statements, in accordance with the following:
 - Employers that are responsible only for OPEB liabilities for their own employees and that provide OPEB through a defined benefit OPEB plan administered through a trust that meets specified criteria will report a net OPEB liability (the difference between the total OPEB liability and the assets accumulated in trust to make the benefit payments)
 - Employers that participate in a cost-sharing OPEB plan that is administered through a trust that meets specified criteria will report a liability equal to the employer's proportionate share for the collective OPEB liability for all employers participating in the plan
 - Employers that do not provide OPEB through a trust that meets specified criteria will report the total OPEB liability for their own employees

GASB 75 requires more extensive note disclosures and required supplementary information (RSI) about the OPEB liabilities. GASB 75 is effective for fiscal years beginning after June 15, 2017 and requires restatement of any prior years presented, if practical.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

- Statement No. 80, Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14: GASB 80 amends Statement No. 14, *The Financial Reporting Entity*, to add an additional criterion for reporting a component unit through the blending method. If a component unit is a not-for-profit corporation and the primary government is the sole corporate member, the component unit should be blended. GASB 80 is effective for financial statements for fiscal years beginning after June 15, 2016.
- Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73: GASB 82 addresses the presentation of payroll-related measures in RSI, the selection of assumptions and the treatment of deviations from guidance in Actuarial Standards of Practice for financial reporting purposes and the classification of payments made by employers to satisfy plan member contribution requirements. GASB 82 is effective for financial statements for fiscal years beginning after June 15, 2016, with certain exceptions pertaining to the assumption guidance.
- GASB Statement No. 83, Certain Asset Retirement Obligations (GASB 83): GASB 83 Standardizes requirements on the recognition and measurement for asset retirement obligations, other than landfills, to reduce inconsistency in financial reporting and enhance comparability. GASB 83 is effective for financial statements for fiscal years beginning after June 15, 2018.
- GASB Statement No. 84, Fiduciary Activities (GASB 84): GASB 84 clarifies when a government has a fiduciary responsibility and is required to present fiduciary fund financial statements. GASB 84 is effective for financial statements for fiscal years beginning after December 15, 2018.
- GASB Statement No. 85, Omnibus 2017 (GASB 85): GASB 85 includes amendments to certain existing literature. GASB 85 is effective for financial statements for fiscal years beginning after June 15, 2017.

When they become effective, application of these standards may restate portions of these financial statements.

14. COMPONENT UNIT - DOWNERS GROVE PUBLIC LIBRARY

A. Summary of Significant Accounting Policies

The statements for the component unit, Downers Grove Public Library (the Library), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

The more significant of the Library accounting policies are described below.

1. Fund Accounting

The Library uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to determine legal compliance and to aid financial management by segregating transactions related to certain governments functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental, proprietary, and fiduciary.

Governmental funds are used to account for substantially all of the Library's general activities, including, the acquisition or construction of general capital assets (capital projects funds) and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the Library, not accounted for in some other fund.

2. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Library. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the combining and individual fund financial statements.

The Library reports the following major governmental funds:

The *General Fund* is the Library's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Library Debt Service Fund* is used for the payment of the Library's debt service.

3. Measurement Focus, Basis of Accounting, and Financial Statement

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied (i.e. intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Library considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded when payment is due.

Charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Fine revenues are not susceptible to accrual because generally they are not measurable until received in cash. The Library recognizes property taxes when they become both measurable and available in the year intended to finance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Library's policy to use restricted resources first, then unrestricted resources as they are needed.

The Library reports unearned and unavailable revenue on its financial statements. Unearned and unavailable revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned and unavailable revenues also arise when resources are received by the Library before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Library has a legal claim to the resources, the liability for unearned or unavailable revenue is removed from the financial statements and revenue is recognized.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

4. Cash and Cash Equivalents and Investments

Investments consist of certificates of deposit and treasury obligations with maturities greater than three months. Investments are reported at fair value, except that non-negotiable certificates of deposit are stated at cost.

5. Receivables

The recognition of receivables associated with non-exchange transactions is as follows:

- Imposed non-exchange receivables (such as: property taxes and fines) are recognized when an enforceable legal claim has arisen.

6. Capital Assets

Capital assets, which include property, plant, and equipment are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial, individual cost of \$25,000 or more for all capital assets. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Years</u>
Buildings	50 – 65
Capital equipment	5 – 15

7. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time. The Village has two items that qualify for reporting in this category: the deferred outflows related to pensions, which represents pension items that will be recognized as pension expense in future periods, and the unamortized loss on refunding.

A deferred charge on refunding arises from an advance refunding of debt. The difference between the cost of the securities placed in trust for future payment of refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

8. **Compensated Absences**

It is the Library's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All pay due in the event of termination is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have been incurred, for example, as a result of employee resignations and retirements near the end of the fiscal year and the payout is actually due to them but has not yet been paid.

9. **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

10. **Deferred Inflows of Resources**

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow resource (revenue) until that future time.

11. **Fund Balances/Net Position**

Governmental fund equity is classified as fund balance and displayed as follows:

- a. **Nonspendable** – Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. **Restricted** – Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. **Committed** – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the Library through formal action of the Library Board. Fund balance amounts are committed through a motion of the Library Board. This motion must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require another motion of the Library Board.
- d. **Assigned** – Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned through the following: 1) the Village Council and Library Board assign amounts for a specific purpose. 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. **Unassigned** – Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

The Library considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending.

Net investment in capital assets represents the book value of capital assets less any long-term debt outstanding issued to acquire or construct the capital assets.

12. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

B. Deposits and Investments

The Library maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Library's funds.

Library Deposits and Investments

The Library's investment policy authorizes the Library to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

The Library's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

It is the policy of the Library to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Library and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

primary objectives of the policy are, in order of priority, legality, safety, liquidity, and yield.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Library's deposits may not be returned to it. The Library's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by the Library, an independent third-party or the Federal Reserve Bank of Chicago.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which investments could be sold.

Investments

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Library limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter-term securities.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Library limits its exposure to credit risk limiting investments to the safest types of securities; pre-qualifying the financial institutions, intermediaries, and advisors with which the Library will conduct business; and diversifying the investment portfolio so that potential losses on individual investments will be minimized. Illinois Funds are rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Library will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Library's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts and a written custodial agreement. Illinois Funds are not subject to custodial credit risk.

Concentration of credit risk is the risk that the Library has a high percentage of its investments invested in one type of investment. The Library's investment policy requires diversification of investments to avoid unreasonable risk by limiting investments to avoid over concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities); no financial institution shall hold more than 40% of the Library's

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

investment portfolio, exclusive of U.S. Treasury securities in safekeeping; monies deposited at a financial institution shall not exceed 75% of the capital stock and surplus of that institution; commercial paper shall not exceed 10% of the Library's investment portfolio, excepting bond issue proceed investments; and deposits in any one public investment pool shall not exceed 50% of the Library's investment portfolio.

C. Receivables

Property taxes for 2015 attach as an enforceable lien on January 1 of the year of the levy on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically. Management has determined that an allowance for uncollectible accounts is not necessary. As the 2016 tax levy is intended to fund expenditures for the 2017 fiscal year, these taxes are deferred as of December 31, 2016.

D. Capital Assets

Capital asset activity for the year ended December 31, 2016 was as follows:

	Balances January 1	Increases	Decreases	Balances December 31
GOVERNMENTAL ACTIVITIES				
Capital assets not being depreciated				
Land	\$ 222,211	\$ -	\$ -	\$ 222,211
Total capital assets not being depreciated	222,211	-	-	222,211
Capital assets being depreciated				
Buildings	11,782,195	108,741	-	11,890,936
Capital equipment	6,466,646	476,892	1,087,768	5,855,770
Total capital assets being depreciated	18,248,841	585,633	1,087,768	17,746,706
Less accumulated depreciation for				
Buildings	2,434,582	235,930	-	2,670,512

GOVERNMENTAL ACTIVITIES				
CAPITAL ASSETS, NET	\$ 13,077,528	\$ (117,333)	\$ 155,219	\$ 12,804,976

Depreciation expense was charged to functions/programs of the component unit as follows:

GOVERNMENTAL ACTIVITIES	
Community services	<u>\$ 702,966</u>

E. Long-Term Debt

Changes in Long-Term Liabilities

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Long-term liability activity for the year ended December 31, 2016, was as follows:

	Balances January 1	Additions	Reductions	Balances December 31	Current Portion
Compensated absences payable*	\$ 36,672	\$ 63,930	\$ 36,672	\$ 63,930	\$ 19,179
Net OPEB payable *	176,841	17,286	-	194,127	-
General obligation bonds payable	1,230,000	-	615,000	615,000	615,000
Net Pension liability –IMRF*	754,388	923,210	-	1,677,598	-
TOTAL	\$ 2,197,901	\$1,004,426	\$ 651,672	\$ 2,550,655	\$ 634,179

* The Library General Fund liquidates the compensated absences, Net OPEB and Net Pension IMRF liabilities.

General Obligation Bonds

The Village issues general obligation bonds for the Library to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. All of the general obligation bonds are retired by the debt service fund. General obligation bonds currently outstanding are as follows:

	Balances January 1	Additions	Refunding/ Retirements	Balances December 31	Current Portion
\$2,430,000 General Obligation Refunding Bonds, Series 2013, dated January 22, 2013, due in installments of \$600,000 to \$615,000 plus interest at .920% due January 1, 2017.	\$ 1,230,000	\$ -	\$ 615,000	\$ 615,000	\$ 615,000
TOTAL	\$ 1,230,000	\$ -	\$ 615,000	\$ 615,000	\$ 615,000

Debt Service Requirements and Maturities

Annual debt service requirements to maturity for general obligation bonds and note payable are as follows:

Fiscal Year Ending December 31	Governmental Activities	
	Principal	Interest
2017	615,000	2,829
TOTAL	\$ 615,000	\$ 2,829

F. Risk Management

The Library is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. The Library purchases insurance in the open market.

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

G. Contingent Liabilities

The Library is not aware of any current or potential litigation.

H. Post Employment Benefits

In addition to providing pension benefits, the Village provides post employment health care and life insurance benefits (OPEB), in accordance with the personnel policy manual, to all employees who meet the eligibility requirements under the applicable retirement system. Currently, 27 active members with 3 retirees and spouses are participating in the Village's health care plan. The employee pays 100% of the cost of the health and life insurance premiums for the post employment benefits with the exception of health benefits for retirees that have reached 65. Once an employee reaches 65 years of age, the Village subsidizes 50% of the health insurance premium. For new retirees after September 1, 2009, the retiree pays 100% of the cost of the health and life insurance premiums. The annual required contribution for 2015 was \$21,345. All health care benefits are provided through the Village's self-insured health plan. The benefit levels are the same as those afforded to active employees. The Village first had an actuarial valuation as of December 31, 2007. The Library's Net OPEB obligation as of December 31, 2015 was \$194,127.

In the actuarial valuations, the entry-age normal actuarial cost method was used. The actuarial assumptions included 4% investment rate of return and an annual healthcare cost trend rate of 4.4%, a reduction from 5% a year ago. Both rates include a 3% inflation assumption. The remaining amortization period at December 31, 2016 was 30 years.

The net OPEB obligation as of December 31, 2016 was calculated as follows:

Annual Required Contribution	\$ 22,199
Interest on Net OPEB Obligation	7,074
Adjustment to Annual Required Contribution	<u>(5,895)</u>
Annual OPEB Cost	23,378
Contributions Made	<u>(6,092)</u>
Increase (Decrease) in Net OPEB Obligation	17,286
Net OPEB Obligation, Beginning of Year	<u>176,841</u>
Net OPEB Obligation, End of Year	\$ <u>194,127</u>

Actuarial valuations include estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The funded status of the plan as of December 31, 2016 was as follows:

VILLAGE OF DOWNERS GROVE, ILLINOIS
Notes to Financial Statements
December 31, 2016

Actuarial Accrued Liability (AAL)	\$ 253,117
Actuarial Value of Assets	0
Unfunded Actuarial Accrued Liability (UAAL)	253,117
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.0%
Covered Payroll	\$ 1,626,486
UAAL as a Percentage of Covered Payroll	15.6%

I. Stewardship, Legal Compliance and Accountability - Budgets

All departments of the Library submit requests for budgets to the Library Director so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates, and requested budgets for the next fiscal year.

The proposed budget is presented to the Library Board for review.

The Library Director is authorized to transfer budgeted amounts between programs within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Library Board and Village Council.

Notes to Schedule

The Village implemented GASB Statement No. 68 in fiscal year 2015. Additional years information will be displayed as it becomes available.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 of the year prior to the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Aggregate entry age normal
Amortization period	Level percentage of payroll, closed
Remaining amortization period	28 years
Asset valuation period	5-Year smoothed market; 20% corridor
Inflation	3.50%
Salary increases	4.40% to 16.00% including inflation
Investment rate of return	7.50%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition
Mortality	RP-2000 Combined Healthy Mortality Table

Other information:

There were no benefit changes during the year.

Notes to Required Supplementary Information

December 31, 2016

1. BUDGETS

All departments of the Village submit requests for budgets to the Village Manager so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates, and requested budgets for the next fiscal year. All governmental funds have legally adopted annual budgets. Budgets are prepared in accordance with generally accepted accounting principles, except for depreciation.

The proposed budget is presented to the Village Council for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The manager is authorized to transfer budgeted amounts between programs within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body. Three budget amendments were completed during the fiscal year with Village Council's approval.

Expenditures may not legally exceed budgeted appropriations at the fund level.

NONMAJOR GOVERNMENTAL FUNDS

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL SERVICE FUNDS

The Motor Fuel Tax (MFT) Fund exists to account for the activities related to street maintenance and construction. Financing is provided by the Village's share of state gasoline taxes. State restricts the use of these gasoline taxes for street-related purposes.

Foreign Fire Insurance Fund exists to account for monies from a 2% state tax imposed on fire insurance policies written by insurance companies located outside of the state of Illinois. These funds are intended to provide for the needs of the department.

Ogden TIF Fund exists to account for all financial activity related to the Ogden Avenue Tax Increment Financing District. TIF revenues are provided through the collection of property taxes, or TIF increment, created from the increasing value of property within the district. The revenues are used to facilitate redevelopment along the corridor in accordance with applicable Illinois TIF statutes.

Sales Tax Rebate Fund exists to account for revenues and expenditures related as part of the Village's economic development efforts. The Village has entered into tax rebate agreements with local businesses. These agreements assist in the attraction and retention of retail businesses. Each of the agreements includes performance standards that must be met prior to the payment of any tax rebate.

Asset Forfeiture Fund exists to account for the revenues and expenditures of proceeds from asset seizures.

DEBT SERVICE FUNDS

Fairview Avenue Debt Service Fund exists to account for revenues and expenditures associated with debt service payments on the \$3.0 million 1998 series General Obligation Bond Issue for the reconstruction of Fairview Avenue from 63rd Street to 75th Street. Revenues for this fund are derived from a portion of the gasoline tax levied on fuel purchased at the retail level in Downers Grove.

Downtown Redevelopment TIF Fund exists to account for the principal and interest payments associated with all of the Village's outstanding debt series related to the improvements in the downtown TIF.

Capital Debt Service Fund exists to account for the principal and interest payments associated with all of the Village's outstanding debt related to the Fire Station 2 and the roadway improvements.

CAPITAL PROJECTS FUNDS

Municipal Buildings Fund exists to account for planned, project-oriented maintenance activities related to the Village's facilities. The projects included in this fund help to ensure that the following facilities are maintained and serve the employees and general public.

Real Estate Fund tracks property management activities for all non-operational Village owned parcels including the Fairview and Main Street train stations and commercial property within the Central Business District that was purchased for redevelopment purposes.

MAJOR PROPRIETARY FUNDS

MAJOR PROPRIETARY FUNDS

Waterworks Fund accounts for the provision of potable water services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund including but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

Parking Fund accounts for the fee-based parking throughout the Village. All activities including lot maintenance, parking permits administration, parking enforcement, and collections are included in this fund.

Stormwater Utility Fund accounts for projects recommended to address drainage and stormwater issues within the public system. All activities necessary to provide such services are accounted for in this fund including but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

INTERNAL SERVICE FUNDS

INTERNAL SERVICE FUNDS

Equipment Replacement Fund provides a dedicated funding source for equipment that is replaced on a routine basis. It allows for items to be replaced when they need to be versus when funds are available. Village departments “pre-fund” for equipment purchases by making payments to this fund for equipment that they use. This fund is used to purchase vehicles, computer equipment and fire equipment.

Fleet Service Fund provides services that require the use of vehicles and equipment. From fire and police to watermain repairs, services cannot be provided without a well-maintained and efficient fleet. To ensure this occurs, Public Works operates a garage for vehicle and equipment maintenance and repair. The Public Works facility also has a fueling station with pumps for Bio-Diesel, E-85, unleaded gas, and Compressed Natural Gas

Health Insurance Fund accounts for financial activity related to the Village’s self-insured medical, dental, vision and life insurance plans.

Risk Management Fund accounts for financial activity related to the Village’s workers’ compensation and liability insurance program, management of all Village liability claims, and employee safety training programs.

SECTION 8

STATISTICAL SECTION (Unaudited)

This part of the Village of Downers Grove's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall financial health.

<u>Contents</u>	<u>Pages</u>
Financial Trends These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.	8-1 - 8-5
Revenue Capacity These schedules contain information to help the reader assess significant local revenue sources, the property tax and sales tax.	8-6 - 8-11
Debt Capacity These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.	8-12 - 8-14
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	8-15 - 8-16
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.	8-17 - 18-19

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
