Containers stored inside or outside a building shall be secured inside a shelf or rack system of non-combustible construction or shall be chained to a non-combustible wall. Either method of storage shall prevent the tank from "rocking" if exposed to fire. If stored outside, tanks shall be protected from tampering. Portable containers shall not be taken into building. Self-service filling of LP-gas containers of any quantity at location open to the public is prohibited. Each storage area of 60 gallons or less shall be separated by other such areas by at least 25 feet. Containers open to the public shall be protected in an approved noncombustible enclosure, or in a lockable ventilated noncombustible locker or rack that prevents tampering with valves and pilferage of the cylinders. Protection from vehicle impact shall be provided as stipulated by the authority having jurisdiction. Containers awaiting use, exchange, or resale shall not be stored within 5 feet of any doorway in a building opening to the public.

Upon install, please call 630-434-5983 to schedule an onsite inspection and receive a hard copy annual license.
