

# Greener Landscapes Day

Come make your gardens and lawns truly green this summer by purchasing rain barrels and native plants. Rain barrels store stormwater runoff from rain events for future use in gardens and lawns. Native plants are hardy species with deep roots that hold water and can handle the changes in our region's climate. They also attract many butterflies and birds.

May 30, 2009  
8:30 a.m. to 12:00 p.m.\*  
DuPage County Fair Grounds  
2015 W. Manchester Road
