

COUNCIL WORKSHOP ITEM

ITEM: Purchase of Mobile Lifts for Fleet Maintenance
DATE: February 6, 2001
PREPARED BY: Jerry Sprecher, Deputy Village Manager
PURPOSE: Authorize Purchase

DISCUSSION:

Fleet Maintenance is requesting the purchase of two mobile lifts for use in the Fleet facility. Currently there are four such units, which are used for raising the larger weight vehicles. The addition of two lifts will provide the ability to raise two vehicles-and work on them-concurrently. These units serve to complement the in-ground and above-ground lifts that are used more routinely for cars and lighter trucks.

It is requested that these two lifts be purchased from a sole source provider of the SEFAC lift. At the time the existing lifts were purchased, there had been demonstrations of several lifts and a competitive bid. SEFAC was selected in that process, and the remaining two units need to be compatible with the existing units.

ATTACHMENT:

None

RECOMMENDATION:

It is requested that Council authorize on the February 20th Consent Agenda the purchase of two SEFAC lifts from Interstate Lift & Equipment Company, South Bend, Indiana. The total cost of the units is \$19,995. A total of \$25,000 was budgeted for this purchase.
