

COUNCIL WORKSHOP ITEM

ITEM: Sewer Jetting
DATE: February 7, 2001
PREPARED BY: Kevin Dunne, Drainage Manager
PURPOSE: Ongoing storm sewer, manhole and inlet cleaning program designed to prevent blockages from debris and silt preventing upstream flooding problems. The Village annually cleans approximately 75,000 lineal feet of storm sewer and 300 – 400 manholes and inlets.

DISCUSSION:

The Drainage Division sent out bid requests from eight different vendors. We received a reply from two, Heritage Environmental & Kenny Industrial Services. We have used Heritage Environmental the past two seasons with good results. However, Kenny Industrial Services has come in with the low bid. Since the Village has never used them before, a list of references was requested. After contact with seven companies and municipalities, which included the City of Berwyn and the City of Evanston, I have found all to be satisfied with the level of service given by Kenny Industrial Services.

This years bids are as follows, Heritage Environmental at \$29,070.00 and Kenny Industrial Services at \$28,350.00.

RECOMMENDATION:

It is recommended that the contract for Sewer Jetting FY/01/02 be awarded to Kenny Industrial Services as low bidder and compliance to bid specifications. Funds for this contract are budgeted in account #001.343.0000.5471 in the amount of \$30,000.00.

IV. BID/CONTRACT FORM
