The videotape of the meeting will be used for later rebroadcast of the Council meeting over the Village cable television Channel 6.

The Council will follow the rules of conduct for this meeting as provided in Sec. 2.5 of the Downers Grove Municipal Code. These offer the public the opportunity to comment at several points in the meeting. Following this, an opportunity is given for public comments and questions on any subject. Finally, if a public hearing is scheduled for this meeting, an opportunity is given for public comments and questions related to the subject of the hearing.

The Mayor stated that at the appropriate time the presiding officers will ask if there are any comments from the public. If anyone wishes to speak, the individual should raise their hand to be recognized and, after acknowledgment from the presiding officer, approach the microphone and state their name and address. He stated that remarks be limited to five minutes, and asked that individuals refrain from making repetitive statements.

A. Comments and Questions on Active Agenda

There were none.

B. Comments and Questions on General Matters

Judy Sidrys, 5223 Lee Avenue, said that as she watched the Council members address the issue of censuring a Village Commissioner she was moved by the look of absolute disappointment on some of their faces. She was also disappointed. While all were assured that working for two communities would not be a conflict of interest, a mere two days after being sworn in, the wheels were in motion to strip that assurance away by the very person who gave it to us. If this doesn't prove there is a conflict of interest, she said she doesn't know what does. She asked if an executive of Burger King would ever concurrently serve as a voting member of the board at McDonald's, or would Burger King keep this executive if they discovered he was giving or sharing their ideas, confidential, proprietary or not, with McDonald's. Commissioner Tully reminded all last week of a statement that was made which claimed there would be no instance in which the Village of Downers Grove would be put in any way, shape, or form behind an interest as an employee of another Village. She asked what assurance we have of that now. She said she didn't know what could be done to fix the current problem, but said we need to think about the future, since this will surely happen again. So that Village staff, Council members, 50,000 residents as well as state representatives, state senators, and legislators don't have to face this embarrassment, humiliation, and stab in the back again, we need to move forward to create an ordinance that would prevent employees of another village from running for a position within our own Village Council. She suggested this be considered at a future workshop. She said she believed this is what is required to ensure the public interest of Downers Grove residents will never be compromised again. She asked if this could be done.

Jim Speta, 6813 Valley View, said yesterday's Metro section of the Chicago Tribune, contained an article discussing the use of e-mails by various elected officials. The Illinois Attorney General was quoted regarding the Open Meetings Act and the use of e-mails. She stated that having their intent to formulate policy outside the public view violates the spirit if not the letter of the Open Meetings Act. On May 27, at the meeting of the Village Council, one of the Commissioners was censured for revealing the contents of an e-mail from the Village Manager to the Mayor and Commissioners. In view of the Attorney General's opinion, he said it appears that the first sin was the violation of the Open Meetings Act by using e-mail to communicate Village business. As a citizen of Downers Grove, he said he would like to see more emphasis on the open conduct of Village and County business. He said he would like to have the Village Attorney review the actions of the Village Manager and the censuring of the Commissioner with regard to the Open Meetings Act and issue guidelines for future use of e-mail in order to conduct Village business. He said he knows that various other elected officials, such as school boards, have it as policy not to use e-mail because it is a way to go around the Open Meetings Act.

Village Attorney Enza Petrarca said the Village Manager is not a member of the board, and, therefore, the Open Meetings Act does not apply to communications from him.

The Mayor said the e-mail went from the Village Manager who is not an elected official to all the Council members. The Village Manager sent an e-mail to the Council to update them similar to the packets the Council receives every Friday. He will continue to do that as it is not a violation of the Open Meetings Act.

Mr. Speta said he didn't see a problem with the Village Manager talking about operations of the Village. In this case, it was a political battle between the various Villages within the County and the County Board. He thinks the matter should be reviewed.

Commissioner Tully said Mr. Speta raised a question that may have been on the minds of others as well. He said this issue was looked at two years ago when he and Commissioner Zabloudil

joined the Council due to the changes in the way the Council does business with the expansion of the Council from five to seven members. Now it is lawful for two members of the Council to confer about Village business without violating the Open Meetings Act. One of the issues looked at two years ago was the use of e-mail and other forms of communication and how to make sure that everything is in compliance with the Open Meetings Act. At Commissioner Sandack's request, the Village Attorney has looked at the issue again and advised the entire Council with respect to the use of e-mail in a variety of different settings. With respect to this issue of this particular e-mail, this was a communication from the Village Manager and is not an Open Meetings Act question. This involved a matter going on among the County and the State and the municipalities, which would not be constitute an Open Meetings Act violation because there are different entities involved. There was no Open Meetings Act violation here.

Mr. Speta said people wonder what goes on. It appeared there were behind the scenes virtual meetings vs. the actual meetings.

Commissioner Tully said there are legal opinions that define what constitutes a virtual meeting either by phone or e-mail, and what doesn't. The Village Attorney has advised the Council on this.

Christine Fregeau, 1918 Elmore, said the events of last Tuesday's meeting and comments from all of the Commissioners regarding the censure continue to weigh on her mind. She said she remains stunned by its magnitude and precedent. She said the actions, deliberate or otherwise, were not a private matter but a public matter affecting many people and all residents. She said it was necessary and responsible to inform people publicly. The public trust was violated. The public confidence in yet another elected official has been damaged and undermined.

Ms. Fregeau said last week's censure was an official reprimand. She said she assumed that because this situation was unprecedented, there was no provision for a more appropriate disciplinary sanction commensurate with the magnitude of what was done. The actions described by Commissioner Zabloudil were reprehensible and defied credible justification. She said the censure is seemingly very limited in scope. The Village has never been faced with the challenge of a Council member employed by another municipality in any capacity.

She said we must move forward with our eyes opened wider. Residents look to the Council to put in place a process for the future - beyond the code of conduct and last week's resolution. She suggested consideration of provisions beyond censure. She said there needs to be a mechanism in place with appropriate sanctions and consequence for offenses like this in the future. There are many people who think this incident warranted a resignation not from Bensenville, but from our Council. She encouraged the Council to look for a more defined and stringent means to protect the Village and the public interest with more than a reproof.

She suggested adopting new measures or consider revising language in the current code similar to the recall process established in many other cities and states. Without superceding any other state or federal statutes, she said she hoped that, in the future, breaches of conduct and ethics of elected officials could be addressed with more than a mere reprimand when it happens again. She said there simply appear to be no measures in place now to ensure that it won't.

Mayor Krajewski said boards and commission members occasionally raise questions with respect to conflict of interest. Members are advised to bring these issues to the attention to the Village Attorney who is able to advise people as to whether a matter represents a conflict of interest.

Marilynn Gerloff, 4241 Highland Avenue, said history was made last Tuesday in the Council

Chambers in that a resolution was presented censuring Commissioner Stan Urban for improper and unprofessional conduct.

After the Village Clerk read the censure, each Commissioner, the Mayor and the Village Manager told Mr. Urban how they felt about his actions.

Finally, Mr. Urban explained his actions. After giving the whole scenario, he summed it up with saying he got backstabbed. And for this action, he got a slap on the wrist.

Mr. Gerloff said Mr. Urban was not the only one that got stabbed. She said the 50,000 residents of this Village got backstabbed. She said this is a violation of his oath and a betrayal of public trust. She said Commissioner Urban needs to do the honorable thing and resign his position as Village Commissioner. She said that in less than a month's time, Mr. Urban proved to the Village that he cannot respect, honor or maintain confidentiality of official business in the Village. She again said he needs to resign.

Eric Kothanek, 5310 Lee Avenue, said it is not his role to question Mr. Urban's motivation, but it is his role to question his actions, to judge his ethics, and to consider his principles. He said he and the other residents suffer the burden of Mr. Urban's breach. Last week Mr. Urban was judged by his peers. This week he must answer to his constituents. He said Mr. Urban's hand has been slapped. He asked the Council to consider implementing strategies moving forward. He urged the Council to consider a zero tolerance policy.

Commissioner Tully said this was under discussion when he was running for Council two years ago. He said it is his sincere hope that this moves forward quickly.

The Mayor asked our owner's representative, Sara Davis, if she checked references with Alexian Brothers.

Ms. Davis said she did check with Alexian Brothers. Their project was an addition to a parking structure that was done on-budget and on time. They were pleased with their work with Pat Donovan. They encountered some minor problems with the transition from the old to the new structure, which will not happen here as we are building a whole new structure. They would consider Turner for future projects.

Commissioner Urban said he is convinced Turner can do the work competently and in a timely manner. He said that although he does not agree with the placement of the deck, he is pleased to have an opportunity to vote on this issue. He has been in favor of a parking deck for a long time.

Commissioner Schnell discussed the responsibilities and duties of Turner. She said the Council wants to be kept up to date on this project. The Mayor, at last week's meeting, suggested monthly updates. She suggested this be added to the duties.

Mayor Krajewski reiterated that updates would be provided on the 4th Tuesday of each month at 6:30 p.m.

Joe Skach, Director, Redevelopment, said the monthly updates to the Council are part of the contracts associated with the construction of the deck. These are to be facilitated by the owner's representative. There will be weekly and Manager updates as well.

Commissioner Schnell said the Council needs someone from Turner at the meetings.

The Mayor said it could be a Turner representative or our owner's representative, perhaps alternating months.

Commissioner Sandack commended the staff on this issue. He said it was done in a competitive bid environment. Turner is well-known. He is convinced they will do a good job.

She said that at a recent meeting that had 25 or more communities in attendance, only three have implemented the new regulations.

The Mayor asked the Village Attorney make the Open Meetings Act, cases, and clarification as to its application available in the Library.

Commissioner Schnell said from the time the Council first received their e-mail addresses they received instructions and have had updates as necessary.

Commissioner McConnell said the Partnership for Healthier Communities met on Friday. Regarding their role in disaster preparedness, they have agreed to establish a task force to help train and support residents in the event of any type of disaster, not just terrorism.
