

A review of the proposals indicates that the Caterpillar 938G is the lowest priced unit that meets the Village's specifications. Public Works staff is interested in adding the high lift arrangement considering the favorable pricing. The high lift arrangement adds about one and a half feet to the maximum dump height of the loader. This capability improves the loader's clearance and allows it to load into a wider variety of trucks. The Public Works snow supervisors determined that the light material bucket and the pallet forks were not necessary.

ATTACHMENT:

- 1) Bid Forms for Patten Industries, McAllister Equipment and West Side Tractor Sales
- 2) Wheel loader information

RECOMMENDATION:

Staff recommends that the Village Council consider awarding a purchase to Patten Industries, Inc. for one Caterpillar 938G Series II wheel loader as specified in the amount of \$97,923.00.
