BACKGROUND

The Equipment Replacement Plan adopted by the Village Council for FY 2007 includes the scheduled replacement of one front end loader with accessories in the Public Works Department. The vehicle being replaced (Unit 258) is a 1991 Michigan/Volvo L90 wheel loader. This piece of equipment is primarily assigned to the Street Division and is used daily for the loading of dirt, stone and salt into Village vehicles, along with snow removal operations in the downtown area and in Village cul-de-sacs during the winter season.

A Call for Bids was sent to six (6) Chicago-area front end loader dealers and equipment distributors and published in accordance with established Village policy. Five (5) bids were received with the complete bid results shown in the attached bid tabulation. The loader dealers bidding represented manufacturers such as Case, Caterpillar, Volvo, John Deere, and Terex. Staff's review of the bids indicates that the 2007 Volvo L90 F front end loader as bid by McAllister Equipment is the lowest priced unit meeting the Village's specifications.
