

Staff Responses to Council Questions
June 18, 2013

UPDATE Regarding Active Agenda Item C: Bicycle and Pedestrian Plan: During tonight's Active Agenda, Mayor Tully will ask for a motion to table this item to a date uncertain. It will be placed on a future First Reading Agenda to allow time for additional Council member comments and deliberation.

8. FIRST READING

A. Motion: Award a Contract for \$261,464.40 to Archon Construction Co., Inc., Addison, IL, for Sterling Road Storm Sewer Project

Why did Archon Construction submit documents late? Is there any concern related to this?

There were two bidders for the project and both initially failed to provide a portion of the required documentation that relates to qualifications, insurance and bonding. Both bidders were provided with the opportunity to resubmit the missing information and both complied. Archon complies with all requirements and staff does not believe this oversight is of concern.

Council rEmarks

There were no online comments this week.
